SUPPLEMENTARY INFORMATION: On February 28, 2003, the President issued Homeland Security Presidential Directive—5 (HSPD-5), Management of Domestic Incidents, which directed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS). This system provides a consistent nationwide template to enable Federal, State, tribal, and local governments, the private sector, and nongovernmental organizations to work together to prevent, protect against, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity. This consistency provides the foundation for utilization of NIMS for all incidents, ranging from daily occurrences to incidents requiring a coordinated Federal response. NIMS represents a core set of doctrines, concepts, principles, terminology, and organizational processes that enables effective, efficient, and collaborative incident management. One of the elements of NIMS is the credentialing of personnel that may respond to disasters.

The *Guideline* provides guidance on how to best credential the personnel who respond to incidents, including large-scale terrorist attacks and catastrophic natural disasters that require inter-State deployable mutual aid. The *Guideline* will encourage interoperability among Federal, State, and local officials and will facilitate deployment for response and/or restoration. The *Guideline* will allow incident commanders to exercise enhanced access control in times of crisis.

For non-Federal stakeholders, the *Guideline* will help ensure that when called upon for mutual aid, emergency response officials from multiple jurisdictions and sectors will have interoperable processes. This will enable emergency response officials to spend less time processing and being processed and more time responding to the incident. The *Guideline* is built upon scalable, flexible, and adaptable coordinating structures to align key roles and responsibilities across the Nation. It describes specific authority and best practices for managing interstate disasters and integrates credentialing within the Incident Command System.

FEMA solicits comments on the draft *Guideline*, which is available in Docket ID FEMA-2008-0015 at <http://www.regulations.gov>.

Authority: Homeland Security Act of 2002, Public Law 107-296, as amended; Homeland Security Presidential Directive—5, *Management of Domestic Incidents*, and Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, Section 408 and 409.

Dated: December 8, 2008.
