The Kellogg Village site (22CL527), located in the Divide Cut Section of the Tennessee Tombigbee Waterway, contained Middle Archaic, Woodland, and Mississippian components. Forty-eight cultural items were removed from Lowndes County, MS. The Shell Bluff site (22LO530) is a shell midden and base camp with Late Woodland and Miller III components. Excavation of the site by the University of Southern Mississippi under principal investigators Drs. David Heisler and Robert Gilbert and field directors Thomas Padgett and Don Crusoe began in July and August of 1979 and resumed during mid-October through late November 1979. The 48 lots of unassociated funerary objects consist of 11 lots of ceramics, five lots of lithics, six lots of shells, two lots of ground sandstone, six lots of faunal remains, four lots of miscellaneous fill, three lots of daub, three lots of sandstone fragments, four lots of soil samples, two lots of burial fill, one lot of firecracked rock, and one lot of fired clay.

Eleven cultural items were removed from Lowndes County, MS. The Vaughn Mound site (22LO538) has Middle Archaic, Woodland, Miller III, and Miller IV components. The site was identified by Marc D. Abstract: The NPS is authorized by the National Park Service Protection, Interpretation, and Research in System (54 U.S.C. 100701) statutes to collect information used to enhance the management and planning of parks and their resources. The NPS Social Science Program (SSP) relies heavily on this generic approval to submit survey requests to OMB in an expedited manner. This process significantly streamlines the information collection process in a manner that allows the NPS to submit at least 25 requests per year, which is 5 times as many requests that can be processed annually using the regular submission route.

The Programmatic Clearance applies to all NPS social science collections (*e.g.*, questionnaires, focus groups, interviews, etc.) designed to furnish usable information to NPS managers and planners concerning visitor experiences, perceptions of services, programs, and planning efforts in areas managed by the NPS. To qualify for the NPS generic programmatic review process each information request must show clear ties to NPS management and planning needs in areas managed by the NPS or involve research that will directly benefit the NPS. The scope of the programmatic review process is limited to issues that are non-controversial or unlikely to attract significant public interest.

All collections must be reviewed by the NPS Social Science Program and approved by OMB before a collection is administered. The Pool of Known Questions (PKQ) serves as a collection of example questions. We acknowledge that the PKQ is not a comprehensive collection of all possible survey questions; therefore, we are requesting
