FOR FURTHER INFORMATION CONTACT: Nicholas Mastrocinque, (202) 326-3188, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW., Mail Stop CC-9232, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: The Do-Not-Call Registry Fee Extension Act of 2007 (Pub. L. 110-188, 122 Stat. 635) ("Act"), mandates a specific fee structure to use in determining the fees for accessing the Registry. According to the Act, for each year beginning after fiscal year 2009, the dollar amounts charged shall be increased by an amount equal to the amounts specified in the Act, whichever fee is applicable, multiplied by the percentage (if any) by which the average of the monthly consumer price index (for all urban consumers published by the Department of Labor) ("CPI") for the most recently ended 12-month period ending on June 30 exceeds the CPI for the 12-month period ending June 30, 2008. The Act also states that any increase shall be rounded to the nearest dollar and that there shall be no increase in the dollar amount if the CPI change is less than 1 percent. We measure this change in CPI from the time of the previous fee increase.

Last year, for fiscal year 2015, we calculated an increase in the CPI of 1.56 percent, and adjusted the fees accordingly (79 FR 51477 (August 29, 2014)). The average value of the CPI for the 12-month period ending June 2014 was 234.966; the average for the 12 months ending June 2015 was 236.677. This is an increase of 0.73 percent, less than the one percent threshold to trigger an increase.

As this falls below the statute's 1 percent required change in the CPI, there shall be no fee access increase. Therefore, the fees will remain at the current level of \$60 per area code, with a maximum fee of \$16,482. The access fee for each area code during the second six months of an entity's annual subscription period remains at \$30. Users will still be able to access the first five area codes free of charge, and organizations that are not required to comply with the Registry will still be

able to access it if they choose to while remaining exempt from fees.

By direction of the Commission.

Donald S. Clark,
Secretary.

Proposed Project

Foreign Quarantine Regulations (42 CFR part 71), (OMB Control No. 0920-0134, Expiration Date 9/30/2017)—Revision — National Center for Emerging and Zoonotic Infections Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The purpose of this information collection proposal is to request a revision of a currently approved data collection "Foreign Quarantine Regulations" that expires September 30, 2017. This revision is an effort to provide greater clarity surrounding paperwork requirements and focuses exclusively on certain information collections within OMB Control No. 0920-0134 pertaining to importation of dogs into the United States. Specifically, CDC seeks to make the following changes:

- CDC is asking to correct a transcription error in the burden tables in section 12. Currently, the relevant IC reads: 71.51(b)(2) Dogs/cats: Certification of Confinement, Vaccination (CDC form 75.37). It should have been: 71.51(c)(2) Dogs: Certification of Confinement, Vaccination (CDC form 75.37).
- CDC is also proposing to replace the CDC form 75.37 NOTICE TO OWNERS AND IMPORTERS OF DOGS: Requirement for Dog Confinement with a new Application For Permission To Import A Dog Unimmunized Against Rabies, which, if the importer meets the criteria for importation, will be followed by a CDC-completed Permit to Conditionally Import a Dog Inadequately Immunized against Rabies—Single Entry.
- CDC is also requesting approval to change and split the current information collection (IC) "71.51(c)(2) Dogs/cats: Certification of Confinement, Vaccination (CDC form 75.37)" into two separate ICs.
- CDC will include one modified IC: "71.51(c)(2), (d) Application For Permission To Import A Dog Unimmunized Against Rabies". This will include a reduced estimate of the numbers of these permits, formerly CDC form 75.37 NOTICE TO OWNERS AND IMPORTERS OF DOGS: Requirement for Dog Confinement, issued each year.
- CDC will include a separate IC pertaining to 71.51(c)(1), (d). The title for this IC is Valid Rabies Vaccination Certificate, which will include only the burden associated with rabies vaccination certificates.

• CDC is also including an information collection for 71.51(c)(i), (ii), and (iii) which provides exemption criteria for the importation of a dog without a rabies vaccination certificate.

CDC is not requesting changes to any of the other information collections included under OMB control number

0920–0134 Foreign Quarantine Regulations.

CDC is providing two estimates of the total annualized burden of this information collection request, because CDC needs the flexibility to use the PLF in a widespread manner during an outbreak of public health significance. The first total, 307,546 burden hours, is

the total estimated burden to respondents per year with the use of the Passenger Locator Form used in an outbreak of public health significance. The second total, 82,613 burden hours, includes the more limited use of the PLF. It is more likely that the average annual burden for reporting and recordkeeping will be the second total.
