**SUPPLEMENTARY INFORMATION:** *Affected entities:* Entities potentially affected by this action are state and local governments, state and county colleges, and those organizations which provide training assistance through the Clean Water Act 104(g)(1) Program to municipal wastewater treatment plants.

*Estimated Number of Respondents:* 48.

*Frequency of Response:* Biannually and annually.

*Estimated Total Annual Hour Burden:* 336.

*Estimated Total Annualized Capital, O & M Cost Burden:* \$0.

*Title:* National Wastewater Treatment Plant Operator Training and Technical Assistance Program. This non-rule ICR is a new collection.

*Abstract:* The Wastewater Operator Training Program provides on-site technical assistance to municipal wastewater treatment plants. Information will be collected from the network of forty-eight 104(g)(1) training centers set up throughout the United States. The information will be collected to identify the facilities assisted, the different types of assistance the program provides and the environmental outcomes and benefits of the assistance

provided by the program. The information will be collected and submitted on either an annual or semi-annual basis. A database and spreadsheet have been developed for this purpose. This ICR will be used by EPA for the technical and financial management of the 104(g)(1) Program. The 104(g)(1) Program training centers shall participate in the information collection, due to the fact that it is a mandatory grant condition. All information in the data system will be made public upon request.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information, was published on January 30, 2001. No comments were received.

*Burden Statement:* The average annual burden hours to each 104(g)(1) training center grantee will be 7 hours, for a total of 336 hours per year. Data will be collected on an annual basis, in May of each year, for the database collection, and data for the spreadsheet information collection will be conducted on a semi-annual basis, in May and November of each year. Reporting requirements will be included as grant conditions, so it is expected that 100% of the 104(g) training centers will respond to this collection request. All forty-eight (48) training centers and EPA have the necessary equipment, desk-top computers and software, to collect and manage this information. There will be no additional start-up or maintenance costs associated with this project to perform this information collection request. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Send comments on the Agency's need for this information, the accuracy of the

provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques, to the addresses listed above. Please refer to EPA ICR No. 1977.01 in any correspondence.

**FOR FURTHER INFORMATION CONTACT:** For a copy of the ICR, call Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at [Farmer.Sandy@epamail.epa.gov](mailto:Farmer.Sandy@epamail.epa.gov) or download off the Internet at <http://www.epa.gov/icr>, and refer to EPA ICR

No.1681.04. For technical questions about the ICR contact Sally Sasnett, (202) 564-7074 or by E-mail at sasnett.sally@epa.gov.

**SUPPLEMENTARY INFORMATION:** *Title:* NESHAP for Epoxy Resin and Non-nylon Polyamide Resin Production, Subpart W, OMB Control No. 2060-0290; EPA ICR No. 1681.04, expiring September 30, 2001. This is a request for extension of a currently approved collection.

*Abstract:* The ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR part 63, subpart W, regulating hazardous air pollutants from process vents, storage vessels, wastewater systems and equipment leaks. The standards require mandatory record keeping and reporting to document process information related to the source's ability to comply with the standards. This information is used by the Agency to identify sources subject to the standards and to insure that the maximum achievable control technology is being properly applied. Section 112 of the Clean Air Act, as amended in 1990, requires that EPA establish standards to limit emissions of hazardous air pollutants (HAPs) from stationary sources. The sources subject to these provisions emit the HAPs epichlorohydrin, and in lesser amounts, hydrochloric acid and methanol. In the Administrator's judgment, hazardous air pollutant emissions in this industry cause or contribute to air pollution that may be reasonably expected to endanger public health or welfare. Respondents are owners or operators of new and existing facilities that manufacture polymers and resins from epichlorohydrin. Source categories include basic liquid epoxy resin (BLR) producers and producers of epichlorohydrin-modified non-nylon polyamide resins, also known as wet strength resins (WSR).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on February 1, 2001, 66 FR 8593; no comments were received.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 156 hours per response. Burden means the total time,

effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Owners or operators of new and existing facilities that manufacture polymers and resins from epichlorohydrin.

*Estimated Number of Respondents:* 13.

*Frequency of Response:* semiannually (some quarterly).

*Estimated Total Annual Hour Burden:* 4525 hours.

*Estimated Total Annualized Capital and Operating Maintenance Cost Burden:* \$9,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1681.04 and OMB Control No. 2060-0290 in any correspondence.
