

Georges Bank yellowtail flounder as well as the vessel buyback provisions in the reauthorized Magnuson-Stevens Fishery Conservation and Management Act. During this report the Council also will consider a process for the approval of additional management sectors in the Northeast multispecies fishery for 2011. Following this agenda item, there will be an open period for public comments on issues related to fisheries management issues, but not listed on the meeting agenda. During the afternoon session, the Council plans on an update from the Joint Groundfish/Scallop Committee. The committee has been tasked with development of an amendment to facilitate the transfer of groundfish landings between the multispecies and scallop fisheries. Draft goals and objectives and initial identification of measures may be included under this topic. Before meeting adjournment, the Council may address any other outstanding business related to this meeting.

Although other non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subjects of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided that the public has been notified of the Council's intent to take final action to address the emergency.
