

Division present. The procedures will not allow any discussion or negotiation among carriers about flight reductions, prices charged, or markets served. During the course of the meetings, carriers will not be told schedule reductions or modifications other carriers are offering or being asked to offer.

For these reasons, the Department is not presently inclined to initiate antitrust enforcement action against any carrier that participates in the FAA's flight reduction meeting and conducts itself in the manner described in your May 9, 2025 letter. This expresses the Department's current enforcement intention regarding the carriers' participation in the flight reductions meeting. The Department reserves the right to bring an enforcement action against any conduct that violated the antitrust laws.

Sincerely,
Abigail Slater

Federal Aviation Administration

[Docket No. FAA-2025-0961]

Agency Information Collection Activities: Requests for Comments; Clearance of New Approval of Information Collection: Basic Survival Skills for General Aviation Training Record

AGENCY: Federal Aviation Administration (FAA), DOT.
ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval for a new information collection. The information collected on the Basic Survival Skills for General Aviation Training Record is to provide information that the instructor will use to make the course more applicable to those students in attendance while also ascertaining their swimming capability to ensure safety during the training course. The information collected is required to assess and verify a student's ability to attend the post-crash survival course.

DATES: Written comments should be submitted by July 14, 2025.

ADDRESSES: Please send written comments:

By Electronic Docket:
www.regulations.gov (Enter docket number into search field).

By mail: Civil Aerospace Medical Institute, Aerospace Medical Education (AAM-400), 6500 South MacArthur Blvd., Room 302, Oklahoma City, OK 73169.

By fax: 405-954-2305.

FOR FURTHER INFORMATION CONTACT: Eric Simson by email at: *eric.simson@faa.gov*; phone: 405-954-6198.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.
OMB Control Number: 2120-XXXX.
Title: Basic Survival Skills for General Aviation Training Record.

Form Numbers: FAA 3150-3.
Type of Review: Clearance of a new information collection.

Background: The authority for collecting this information is contained in 49 U.S.C. 44703, and 14 CFR 61.31. The data on the Survival Training Record is collected to provide information that the instructor will use to make the course more applicable to those students in attendance while also ascertaining their swimming capability to ensure safety during the hands-on ditching exercise.

The information collected on the Survival Training Record is required by students attending the post-crash survival course. It is reviewed by the training instructor and a member of the Airman Education Program team to personalize the teaching experience, verify the swimming ability and previous survival training experience of those attending this training.

The information collected on the document is done on paper, and not through automated, electronic, mechanical or other technological means. This is because doing so is not possible as it is used in a classroom setting for those that attend training at the time of arrival at the training site and technology is not made available.

The form is not available to be printed off the internet and the information will not be made available to the public.

Respondents: It is estimated that this document will be completed by 150 to 200 students, depending on demand, attending post-crash survival training annually at the Civil Aerospace Medical Institute.

Frequency: Monthly.
Estimated Average Burden per Response: 36 seconds per response, 3 minutes to complete per student.
Estimated Total Annual Burden: 10 hours annually.

Issued in Oklahoma City, OK on May 8th, 2025.

Stephanie Terry,

Administrative Officer, Office of Aerospace Management, Program Management Staff (AAM-006).

[Docket No. FAA-2025-0960]

Agency Information Collection Activities: Requests for Comments; Clearance of New Approval of Information Collection: Physiology Training Record

AGENCY: Federal Aviation Administration (FAA), DOT.
ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval new information collection. The information collected on the Physiology Training Record is required by students attending aviation physiology training that wish to participate in hypoxia training. Information collected is reviewed by the training instructor and a member of the Airman Education Program team to ensure those desiring to participate in this training have the necessary aviation medical qualification.

DATES: Written comments should be submitted by July 14, 2025.

The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-XXXX.

Title: Physiology Training Record.

Form Numbers: FAA 3150-2.

Type of Review: Clearance of a new information collection.

Background: Aviation physiology training is offered by the Civil Aerospace Medical Institute (CAMI) as is outlined in AC 61-107B (2-8.). The authority for collecting this information is contained in 49 U.S.C. 44703, and 14 CFR 61.31. The data on the Physiology Training Record is required to verify that a person can safely enter an oxygen deprived training environment created by hypobaric or normobaric means without an expectation of experiencing unintentional negative results. This includes an increased/accelerated onset of hypoxia, issues (e.g., barotrauma, decompression sickness) resulting from reduced barometric pressure or any other debilitating issue while experiencing their symptoms of hypoxia in a training environment.

Students voluntarily enroll in the aviation physiology course, which is offered to aircrew with an FAA Class 1, 2 or 3 aviation medical certificate or are flying under the BasicMed program and are at least 18 years of age. The goal is that those individuals will have a greater understanding of the stressors in an aviation environment that could affect the onset of hypoxia with the ability to experience their personal symptoms. Doing this should allow them to respond more quickly and correctly in an actual aviation situation.

Respondents: Student possessing a Class, 1, 2 or 3 aviation medical certificate or are flying under the BasicMed program and are at least 18 years of age. It is estimated that this document will be completed by 2,500 to 3,000 students.

Frequency: Bi-weekly to Monthly.

Estimated Average Burden per

Response: 18 seconds per response, 5 minutes to complete all responses per student.

Estimated Total Annual Burden: 270 hours annually.

Issued in Oklahoma City, OK on May 7th, 2025.

Administrative Officer, Office of Aerospace Management, Program Management Staff (AAM-006).
