

Authors

The primary authors of this final rule are the staff members of the Fish and Wildlife Service's Species Assessment Team and the Raleigh Ecological Services Field Office.

List of Subjects in 50 CFR Part 17

Endangered and threatened species, Exports, Imports, Reporting and recordkeeping requirements, Transportation.

Regulation Promulgation

Accordingly, we amend part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations, as follows:

PART 17—ENDANGERED AND THREATENED WILDLIFE AND PLANTS

1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 1531–1544; and 4201–4245; unless otherwise noted.

2. Amend § 17.11 in paragraph (h) by adding an entry for “Lance, yellow” to the List of Endangered and Threatened Wildlife in alphabetical order under CLAMS to read as follows:

§ 17.11 Endangered and threatened wildlife.

* * * * *

(h) * * *

Table with 5 columns: Common name, Scientific name, Where listed, Status, Listing citations and applicable rules. Row 1: CLAMS. Row 2: Lance, yellow, Elliptio lanceolata, Wherever found, T, 83 FR [Insert Federal Register page where the document begins]; 4/3/2018.

50 CFR Part 17

[Docket No. FWS–R3–ES–2013–0017; 4500030113]

RIN 1018–AZ58

Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for the Dakota Skipper and Poweshiek Skipperling; Correction

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Correcting amendments.

SUMMARY: We, the U.S. Fish and Wildlife Service, published a final rule in the Federal Register on October 1, 2015, to designate critical habitat for the Dakota skipper (Hesperia dacotae) and the Poweshiek skipperling (Oarisma poweshiek), under the Endangered Species Act of 1973, as amended (Act). Inadvertently, we published a map of a critical habitat unit for the Dakota skipper in Minnesota where we should have published a map for the Poweshiek skipperling. This document makes the

necessary correction to the critical habitat designation for the Poweshiek skipperling. We are also replacing a map depicting critical habitat for Poweshiek skipperling in Minnesota to make an editorial correction in the title.

DATES: This correction is effective April 3, 2018.

FOR FURTHER INFORMATION CONTACT: Susan Wilkinson, (703) 358–2506. If you use a telecommunications device for the deaf (TDD), call the Federal Relay Service at 800–877–8339.

SUPPLEMENTARY INFORMATION: The Dakota skipper (Hesperia dacotae) is listed under the Act as a threatened species, and the Poweshiek skipperling (Oarisma poweshiek) is listed as endangered. In a final rule that published October 1, 2015 (80 FR 59248), we designated critical habitat for the two butterfly species pursuant to the Act (16 U.S.C. 1531 et seq.). The rule added critical habitat for these species to title 50 of the Code of Federal Regulations (CFR) at 50 CFR 17.95(i). The rule included 32 maps showing critical habitat areas for the Dakota skipper and 48 maps showing critical habitat areas for the Poweshiek skipperling. We inadvertently inserted a map showing critical habitat for the Dakota skipper for Minnesota Unit 7 in the location where we should have included a map showing critical habitat for the Poweshiek skipperling for Minnesota Unit 7. The two maps are different because the areas being designated for each species as “Minnesota Unit 7” are different. Therefore, with this document, we

remove the incorrect map at paragraph (28) of the entry for Poweshiek skipperling and insert the correct map in its place. We are also replacing the map depicting critical habitat for Poweshiek skipperling for Minnesota Unit 10 at paragraph (30) to make an editorial correction in the title. The old map referred to “Swift and Chippewa County,” and the new map correctly refers to “Swift and Chippewa Counties.”

Previous Federal Action

We listed the Dakota skipper as a threatened species and the Poweshiek skipperling as an endangered species on October 24, 2014 (79 FR 63672) with a rule issued under section 4(d) of the Act for the Dakota skipper. This rule followed publication on October 24, 2013, of a proposal to list the Dakota skipper as threatened with a section 4(d) rule and the Poweshiek skipperling as endangered (78 FR 63573). Also on October 24, 2013, we published in the Federal Register a proposed critical habitat designation for the Dakota skipper and Poweshiek skipperling (78 FR 63625). We published a final rule designating critical habitat for the two species on October 1, 2015 (80 FR 59248).

Administrative Procedure

As explained above, this rulemaking is necessary to correct an error associated with the publication of a map for the wrong species and an editorial error related to the title of a map. Therefore, under these circumstances, we have determined, pursuant to 5

U.S.C. 553(b)(3)(B), that prior notice and opportunity for public comment are impractical and unnecessary. Public opportunity for comment is simply not required when an agency amends a regulation to remove regulatory provisions that are not consistent with law. Such action is ministerial in nature and allows for no discretion on the part of the agency. Thus, public comment could not inform this process in any meaningful way. We have further determined that, under 5 U.S.C. 553(d)(3), the agency has good cause to make this rule effective upon publication, which is to comply with the Act as soon as practicable.

List of Subjects in 50 CFR Part 17

Endangered and threatened species, Exports, Imports, Reporting and recordkeeping requirements, Transportation.

Regulation Promulgation

For the reasons given in the preamble, we amend part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations, as set forth below:

PART 17—ENDANGERED AND THREATENED SPECIES

- 1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 1531–1544; 4201–4245; unless otherwise noted.

- 2. In § 17.95, in the entry for “Poweshiek Skipperling (*Oarisma Poweshiek*)”, revise paragraphs (i)(28) and (30) to read as follows:

§ 17.95 Critical habitat—fish and wildlife.

* * * * *

(i) *Insects.*

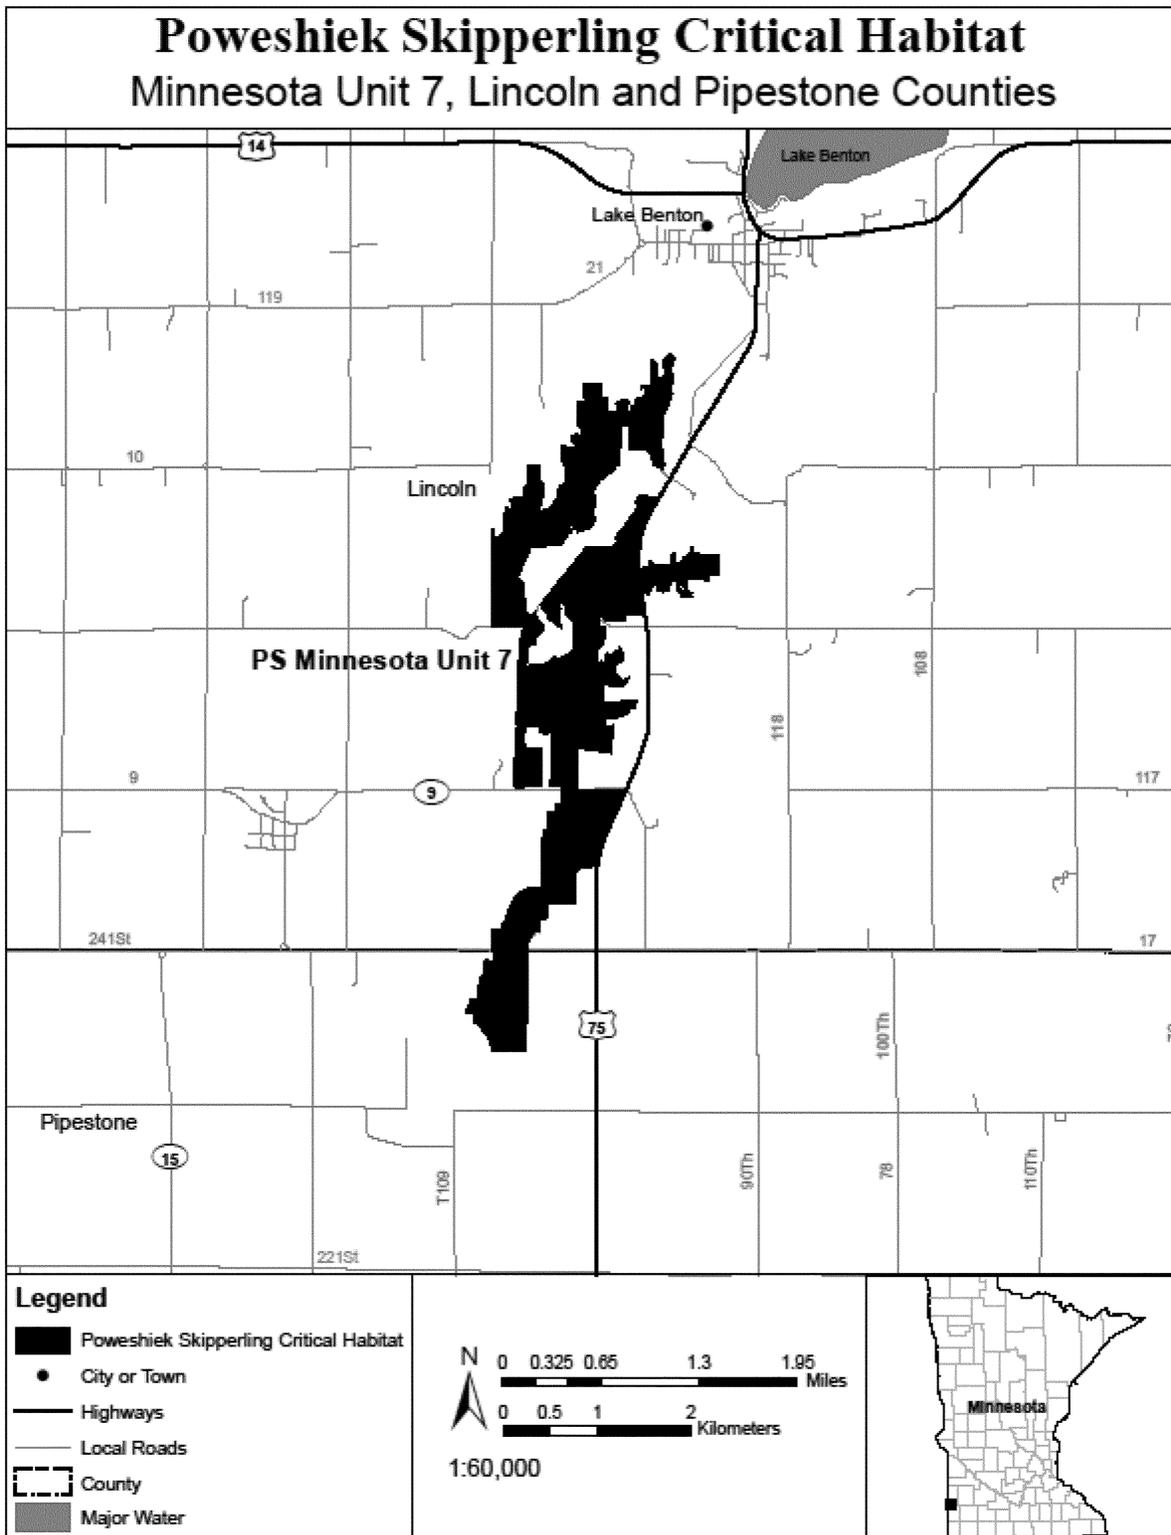

* * * * *

Poweshiek Skipperling (*Oarisma Poweshiek*)

* * * * *

(28) PS Minnesota Unit 7, Lincoln and Pipestone Counties, Minnesota. Map of PS Minnesota Unit 7 follows:

BILLING CODE 4333–15–P

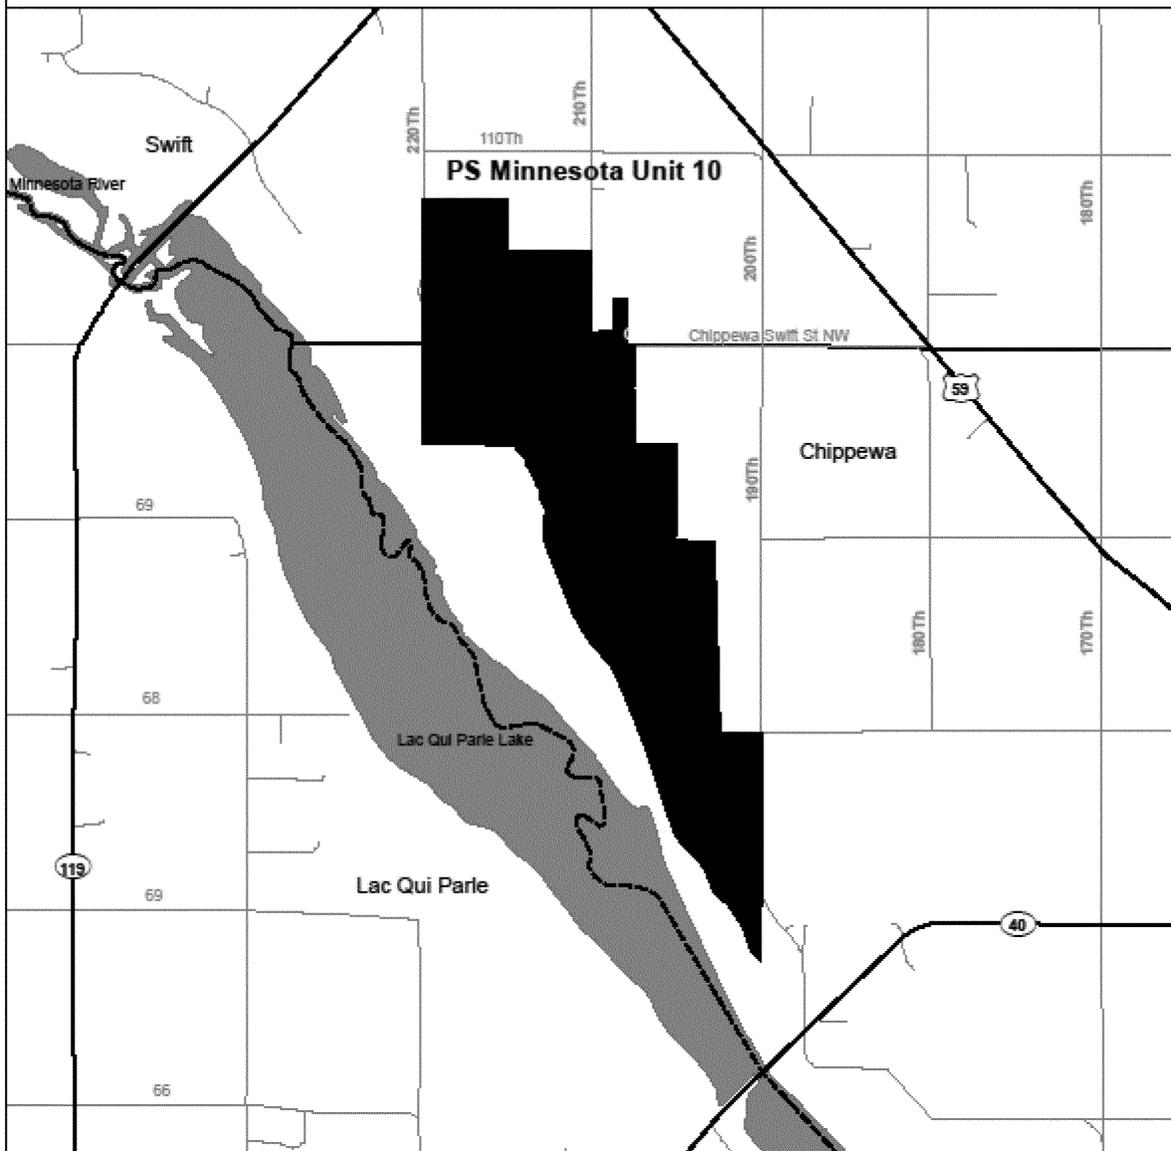

* * * * *

(30) PS Minnesota Unit 10, Swift and Chippewa Counties, Minnesota. Map of PS Minnesota Unit 10 follows:

Poweshiek Skipperling Critical Habitat

Minnesota Unit 10, Swift and Chippewa Counties

BILLING CODE 4333-15-C

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 622**

[Docket No. 1206013412-2517-02]

RIN 0648-XG110

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2018 Commercial Accountability Measure and Closure for Gulf of Mexico Greater Amberjack**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.**ACTION:** Temporary rule; closure.

SUMMARY: NMFS implements accountability measures (AMs) for commercial greater amberjack in the Gulf of Mexico (Gulf) reef fish fishery for the 2018 fishing year through this temporary rule. NMFS has determined greater amberjack landings have exceeded the 2018 commercial annual catch target (ACT). Therefore, the commercial sector fishing season for greater amberjack in the Gulf exclusive economic zone (EEZ) will not re-open on June 1, 2018, the end of the commercial seasonal closure, and the sector will remain closed until the start of the next commercial fishing season on January 1, 2019. This closure is necessary to protect the Gulf greater amberjack resource.

DATES: This rule is effective 12:01 a.m., local time, June 1, 2018, until 12:01 a.m., local time, January 1, 2019.

FOR FURTHER INFORMATION CONTACT: Kelli O'Donnell, NMFS Southeast Regional Office, telephone: 727-824-

5305, or email: *Kelli.ODonnell@noaa.gov*.

SUPPLEMENTARY INFORMATION: NMFS manages the reef fish fishery of the Gulf, which includes greater amberjack, under the Fishery Management Plan for the Reef Fish Resources of the Gulf (FMP). The Gulf of Mexico Fishery Management Council (Council) prepared the FMP and NMFS implements the FMP under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622. All greater amberjack weights discussed in this temporary rule are in round weight.

The 2018 commercial annual catch limit (ACL) for Gulf greater amberjack is 319,140 lb (144,759 kg), as specified in 50 CFR 622.41(a)(1)(iii). The 2018 commercial quota (equivalent to the commercial ACT) is 277,651 lb (125,940.38 kg), as specified in 50 CFR 622.39(a)(1)(v). Additionally, the greater amberjack commercial sector is closed each year during the months of March, April, and May as specified in 50 CFR 622.36(a).

Under 50 CFR 622.41(a)(1)(i), NMFS is required to close the commercial sector for greater amberjack when the commercial ACT is reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS has determined that as of March 15, 2018, 106.4 percent of the 2018 commercial ACT has been reached. Accordingly, NMFS is closing commercial harvest of greater amberjack from the Gulf EEZ for the remainder of the 2018 fishing year effective 12:01 a.m., local time, June 1, 2018, until 12:01 a.m., local time, January 1, 2019. This means that the commercial sector for Gulf greater amberjack will not re-open on June 1, 2018.

During the commercial closure, the sale or purchase of greater amberjack taken from the EEZ is prohibited. The prohibition on sale or purchase does not apply to the sale or purchase of greater amberjack that were harvested, landed ashore, and sold prior to 12:01 a.m., local time, March 1, 2018, and were held in cold storage by a dealer or

processor. The commercial sector for greater amberjack will re-open on January 1, 2019, the beginning of the 2019 greater amberjack commercial fishing season.

During the commercial closure, the bag and possession limits specified in 50 CFR 622.38(b)(1) apply to all harvest or possession of greater amberjack in or from the Gulf EEZ. Additionally, the recreational sector for greater amberjack is closed until May 1, 2018. During the recreational closure, the bag and possession limits for greater amberjack in or from the Gulf EEZ are zero.

Classification

The Regional Administrator, Southeast Region, NMFS, has determined this temporary rule is necessary for the conservation and management of Gulf greater amberjack and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.41(a)(1) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act, because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The Assistant Administrator for NOAA Fisheries (AA), finds that there is good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B). Such procedures are unnecessary because the rule establishing the requirement to close the commercial sector when the commercial ACT is reached or projected to be reached was subject to notice and comment, and NMFS must now notify the public of the closure.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 29, 2018.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
