

Unless substantial issues with adverse environmental impacts are raised in response to this notice, APHIS intends to issue a final EA and finding of no significant impact (FONSI) and authorize shipment of the above product for the initiation of field tests following the close of the comment period for this notice.

Because the issues raised by field testing and by issuance of a license are identical, APHIS has concluded that the EA that is generated for field testing would also be applicable to the proposed licensing action. Provided that the field test data support the conclusions of the original EA and the issuance of a FONSI, APHIS does not intend to issue a separate EA and FONSI to support the issuance of the product license, and would determine that an environmental impact statement need not be prepared. APHIS intends to issue a veterinary biological product license for this vaccine following completion of the field test provided no adverse impacts on the human environment are identified and provided the product meets all other requirements for licensing.

Authority: 21 U.S.C. 151–159.

Done in Washington, DC, this 26th day of February, 2003.

Peter Fernandez,

Acting Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF AGRICULTURE

Grain Inspection, Packers and Stockyards Administration

Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Grain Inspection, Packers and Stockyards Administration, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), this notice announces the Grain Inspection, Packers and Stockyards Administration (GIPSA) intention to request an extension for and revision to a currently approved information collection related to the delivery of services conducted under the official inspection, grading, and weighing programs authorized under the United States Grain Standards Act and the Agricultural Marketing Act of 1946. This voluntary survey would give customers of the official inspection, grading, and weighing programs, who are primarily in the grain, oilseed, rice, lentil, dry pea, edible bean, and related agricultural commodity markets, an

opportunity to provide feedback on the quality of services they receive and will provide information on new services that they would like to receive. This feedback would assist GIPSA's Federal Grain Inspection Service (FGIS) to improve services and service delivery provided by the official inspection, grading, and weighing system.

DATES: Written comments must be submitted on or before May 5, 2003.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposal. Written comments must be submitted to Tess Butler, GIPSA, USDA, 1400 Independence Avenue, SW., Room 1647–S, Washington, DC 20250–3604, or faxed to (202) 690–2755. Comments may also be sent by electronic mail or Internet to: comments.gipsa@usda.gov. All comments should make reference to the date and page number of this issue of the **Federal Register** and will be available for public inspection in the above office during regular business hours (7 CFR 1.27 (b)).

FOR FURTHER INFORMATION CONTACT:

Gregory J. Hawkins, Public and Congressional Relations Staff, e-mail address: gregory.j.hawkins@usda.gov, telephone (202) 720–3553.

SUPPLEMENTARY INFORMATION: The United States Grain Standards Act, as amended (7 U.S.C. 71–87) (USGSA), and the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621–1627) (AMA), authorize the Secretary of the United States Department of Agriculture to establish official inspection, grading, and weighing programs for grains and other agricultural commodities. Under the USGSA and AMA, GIPSA's FGIS offers inspecting, weighing, grading, quality assurance, and certification services for a user-fee, to facilitate the efficient marketing of grain, oilseeds, rice, lentils, dry peas, edible beans, and related agricultural commodities in the global marketplace. Under FGIS oversight, the official inspection, grading, and weighing programs is a public-private partnership including Federal, State, and private agencies and provides official inspection, grading, and weighing services to the domestic and export trade.

There are approximately 2,500 current users of the official inspection, grading, and weighing programs. These customers are located nationwide and represent a diverse mixture of small, medium, and large producers, merchandisers, processors, exporters, and other financially interested parties. These customers request official services from an FGIS Field Office; delegated, designated, or cooperating
