

posed by laser designated or guided weapons. This item contains sensitive technology.

m. The AAR–57 Common Missile Warning System (CMWS) is an integrated infrared (IR) countermeasures suite utilizing ultraviolet (UV) sensors to display accurate threat location and dispense countermeasures either automatically or under pilot or crew control to defeat incoming missile threats.

n. Embedded GPS/Inertial Navigation System INS (EGI) provides GPS and INS capabilities to the aircraft. The EGI will include Selective Availability Anti-Spoofing Module (SAASM) security modules to be used for secure GPS Precise Positioning Service (PPS) if required. The Embedded GPS/INS within the SAASM contains sensitive technology.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Croatia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal are authorized for release and export to Croatia.

BILLING CODE 6001–FR–P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD–2024–OS–0150]

Proposed Collection; Comment Request

AGENCY: Chief Information Officer (CIO), Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the CIO announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the

proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by March 7, 2025.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, Regulatory Directorate, 4800 Mark Center Drive, Mailbox #24 Suite 05F16, Alexandria, VA 22350–1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Office of the Department of Defense Chief Information Officer, 6000 Defense Pentagon, Washington, DC 20301–6000 ATTN: Mr. Rodney McCall, or call (703) 697–5936.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: System Authorization Access Request Form; DD 2875; OMB Control Number 0704–0630.

Needs and Uses: The information collection is necessary for validating the trustworthiness of individuals who request access to DoD systems and information. When an individual requires access to a DoD information system, application, or database, he/she retrieves the DD Form 2875. Executive Order 10450 “Security Requirements for Government Employment” establishes the security requirements for government employment. The requestor’s security requirements

(background investigation and clearance information) are identified on the DD Form 2875 and validated by the cognizant Security Manager. Collection of the requestor’s information ensures that any system access granted is consistent with the interests of the national security.

Affected Public: Individuals or households.

Annual Burden Hours: 600,000.
Number of Respondents: 900,000.
Responses per Respondent: 8.
Annual Responses: 7,200,000.
Average Burden per Response: 5 minutes.

Frequency: As needed.

Dated: December 30, 2024.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Fast Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery; OMB Control Number 0704–0553.

Needs and Uses: The information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform

efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are noncontroversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely

to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Affected Public: Individuals or households; Businesses or other for-profits; Not-for-profit institutions; Farms; Federal Government; State, Local, or Tribal Governments.

Annual Burden Hours: 50,000.
Number of Respondents: 300,000.
Responses per Respondent: 1.
Annual Responses: 300,000.
Average Burden per Response: 10 minutes.

Frequency: On occasion.

Dated: December 30, 2024.
