DEPARTMENT OF COMMERCE

Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Former Field Representative and Enumerator Exit Questionnaire.

Form Number(s): BC-1294, BC-1294(D).

Agency Approval Number: 0607-0404.

Type of Request: Revision of a currently approved collection.

Burden: 84 hours.

Number of Respondents: 645.

Avg Hours Per Response: BC-1294—7 minutes, BC-1294(D)—10 minutes.

Needs and Uses: Field interviewers are the foundation of U.S. Census Bureau data collection programs. Retention of trained field interviewing staff is a major concern for the Census Bureau because of both the monetary costs associated with employee turnover, as well as the potential impact on data quality. High turnover among interviewers can result in a reduction in the quality of data collected, as well as increases in the cost of collecting data. In a continuous effort to devise policies and practices aimed at reducing turnover among interviewers, the Census Bureau collects data on the reasons interviewers leave the Census Bureau. The exit questionnaires (Forms BC-1294 and BC-1294(D)) are used to collect data from a sample of former survey interviewers (field representatives) and decennial census interviewers (listers and enumerators).

The purpose of the exit questionnaires is to determine the reasons for interviewer turnover and what the Census Bureau might have done, or can do to influence interviewers not to leave. As the demographics of our labor force, the nature of the surveys conducted, and the environment in which surveys take place continue to change, it is important that we continue to examine the interviewers' concerns. Information provided by respondents to the exit questionnaire provides insight on the measures the Census Bureau might take to decrease turnover, and is useful in helping to determine if the reasons for interviewer turnover appear to be systemic or localized.

The exit questionnaires seek reasons interviewers quit, inquire about motivational factors that would have kept the interviewers from leaving,
