

law. DEA also recognizes concerns raised by State and local governments, the healthcare industry, the law enforcement community, public and private environmental organizations, and individual citizens. In response to these concerns, DEA is holding a public meeting to gather information from interested persons regarding potential solutions within the framework of the Controlled Substances Act.

As discussed above, DEA is seeking input in the form of oral presentations and written comments. Regardless of the format, specific concerns which persons are encouraged to address are as follows:

- The process of the disposal of unwanted controlled substances could create new and unwanted avenues for diversion. What is the safest manner, in your opinion, to dispose of unwanted controlled substances while preventing diversion?
- Please explain why you believe the solution you propose would protect the public health and safety and would curtail diversion.
- Do you foresee any specific obstacles to the disposal of controlled substances in your community or geographical area? If so, what are they?
- How is the disposal of controlled substances affected by State and local laws and regulations?

Meeting Participation

This meeting is open to the public. Persons and organizations representing state and local governments; law enforcement agencies; publicly owned treatment works; DEA-registered pharmacies; DEA-registered manufacturers, distributors, and reverse distributors; ultimate users of controlled substances (*i.e.*, patients and members of their households); long term care facilities; hospices and in-home care groups; and other concerned organizations may be particularly interested in this meeting.

Persons wishing to attend, or provide oral presentations at this meeting, time and space permitting, must provide the following information to the Liaison and Policy Section using the contact information listed above no later than January 7, 2011 (request to present) and January 12, 2011 (request to attend):
Name:

Title:

Company/Organization:

Address:

Telephone:

E-mail address:

Date(s) you wish to attend:

Persons should clearly indicate in the subject line of their e-mail whether they are requesting to attend the meeting or requesting to present at the meeting, following the "Meeting Attendance" and "Meeting Presentations" sections of this notice.

Please note that this public meeting will not be webcast. A copy of the transcript from this public meeting will be made available at the DEA Diversion Control Program Web site, <http://www.deadiversion.usdoj.gov>.

Persons needing accommodations (*e.g.*, sign language interpreter) are requested to notify DEA with their accommodation request no later than January 7, 2011.

As this meeting is open to the public, confidential business information or other proprietary information should NOT be shared.

Persons wishing to provide written comments may do so no later than January 12, 2011. All comments will be made available at <http://www.regulations.gov> in the electronic docket for this notice of meeting. A link to the electronic docket may be found at <http://www.deadiversion.usdoj.gov>. Please see the "Submission of Written Comments" section for further information regarding providing written comments.

Dated: December 16, 2010.

Joseph T. Rannazzisi,

Deputy Assistant Administrator, Office of Diversion Control.

BILLING CODE 4410-09-P

DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Safety Defects; Examination, Correction, and Records

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) hereby announces the submission of the Mine Safety and Health Administration (MSHA) sponsored information collection request (ICR) titled, "Safety Defects; Examination, Correction, and Records," to the Office of Management and Budget (OMB) for review and approval for continued use in accordance with the Paperwork

Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35).

DATES: Submit comments on or before January 21, 2011.

ADDRESSES: A copy of this ICR, with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained from the RegInfo.gov Web site, <http://www.reginfo.gov/public/do/PRAMain> or by contacting Michel Smyth by telephone at 202-693-4129 (this is not a toll-free number) or sending an e-mail to DOL_PRA_PUBLIC@dol.gov.

Submit comments about this request to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Department of Labor, Mine Safety and Health Administration (MSHA), Office of Management and Budget, Room 10235, Washington, DC 20503, *Telephone:* 202-395-4816/*Fax:* 202-395-6881 (these are not toll-free numbers), *e-mail:* OIRA_submission@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: Michel Smyth by telephone at 202-693-4129 (this is not a toll-free number) or by e-mail at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: Federal Mine Safety and Health Act of 1977 (Mine Act) section 103(h), 30 U.S.C. 813(h), authorizes the MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners.

Regulations 30 CFR 56.13015 and 57.13015 require compressed-air receivers and other unfired pressure vessels to be inspected by inspectors holding a valid National Board Commission and in accordance with the applicable chapters of the National Board Inspection Code, a Manual for Boiler and Pressure Vessels Inspectors, 1979. Safety defects found on compressed-air receivers and other unfired pressure vessels have caused injuries and fatalities in the mining industry. Records of inspections must be kept in accordance with the requirements of the National Board Inspection Code and the records must be made available to the Secretary or an authorized representative.

Regulations 30 CFR 56.13030 and 57.13030 require that fired pressure vessels (boilers) must be equipped with water level gauges, pressure gauges, automatic pressure-relief valves, blowdown piping and other safety devices approved by the American Society of Mechanical Engineers (ASME) to protect against hazards from

overpressure, flameouts, fuel interruptions and low water level. These sections also require that records of inspection and repairs be retained by the mine operator in accordance with the requirements of the ASME Boiler and Pressure Vessel Code, 1977, and the National Board Inspection Code (progressive records—no limit on retention time) and shall be made available to the Secretary or an authorized representative.

Regulations 30 CFR 56.14100 and 57.14100 require operators to inspect equipment, machinery, and tools that are to be used during a shift for safety defects before the equipment is placed in operation. Defects affecting safety are required to be corrected in a timely manner. In instances where the defect makes continued operation of the equipment hazardous to persons, the equipment must be removed from service, tagged to identify that it is out of use, and repaired before use is resumed. Safety defects on self-propelled mobile equipment account for many injuries and fatalities in the mining industry. Inspection of this equipment prior to use is required to assure safe operation. The equipment operator is required to make a visual and operational check of the various primary operating systems that affect safety, such as brakes, lights, horn, seatbelts, tires, steering, back-up alarm, windshield, cab safety glass, rear and side view mirrors, and other safety and health related items. Any defects found are required to be either corrected immediately or reported to and recorded by the mine operator prior to the timely correction. A record is not required if unsafe conditions are not present upon examination prior to use if the defect is corrected immediately. The precise format in which the record is kept is left to the discretion of the mine operator. Reports of uncorrected defects are required to be recorded by the mine operator and kept at the mine office from the date the defects are recorded, until the defects are corrected.

A competent person designated by the operator must examine each working place at least once each shift for conditions that may adversely affect safety or health. A record of such examinations must be kept by the operator for a period of one year and must be made available for review by the Secretary or an authorized representative.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is

currently approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a currently valid OMB control number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under OMB Control Number 1219-0089. The current OMB approval is scheduled to expire on December 31, 2010; however, it should be noted that information collections submitted to the OMB receive a month-to-month extension while they undergo review. For additional information, see the related notice published in the **Federal Register** on September 16, 2010, (75 FR 56558).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference OMB Control Number 1219-0089. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Mine Safety and Health Administration (MSHA).

Title of Collection: Safety Defects; Examination, Correction and Records.

OMB Control Number: 1219-0089.

Affected Public: Business or other for-profit.

Total Estimated Number of Respondents: 12,557.

Total Estimated Number of Responses: 11,502,241.

Total Estimated Annual Burden Hours: 1,223,104.

Total Estimated Annual Costs Burden: \$47,719,911.

Dated: December 16, 2010.

Michel Smyth,

Departmental Clearance Officer.
