

approximately 6 million animals. Feral swine damage: Pastures, agricultural crops, lawns, landscaping, and natural areas due to feeding, rooting, wallowing, grazing, and trampling activities. Feral swine are reservoirs of many diseases and act as a host to parasites that can negatively impact agricultural animals, especially swine.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). The eradication of feral swine is authorized by the Animal Health Protection Act (Title 7 U.S.C. 8301 *et seq.*) and the 2014 Farmbill. The \$20 million program aims to help states deal with a rapidly expanding population of invasive feral swine.

Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 Public Law 104–13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Reporting burden for this collection of information is estimated to average 30 minutes per response. This was determined by our Survey Methodologists, who conducted 19 cognitive interviews in seven states. They also took into account the projected number of farmers who will skip some sections of the questionnaire due to the presence or absence of damage due to feral swine. NASS will be utilizing several pieces of publicity and informational materials to encourage respondents to participate in this important survey. Publicity materials and instruction sheets will account for 10 minutes of additional burden per respondent. Respondents who refuse to complete a survey will be allotted 2 minutes of burden per attempt to collect the data.

NASS will conduct the survey initially by mail and then followed up with phone attempts for non-response.

Respondents: Farm and Ranch Operators.

Estimated Annual Number of Respondents: 18,000.

Estimated Total Annual Burden on Respondents: 9,700 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, January 29, 2021.

Kevin L. Barnes,

Associate Administrator.
