¹ Total hours have been rounded.

² Refers to the facility component of the burden for this requirement.

³ Refers to the AB component of the burden for this requirement.

⁴ Refers to the situation where a patient specifically does not want to receive the lay summary of her exam.

Respondents use the Mammography Program Reporting and Information System to submit information. Our estimated burden for the information collection reflects an overall increase of 28,664 hours and a corresponding increase of 9,137,449 responses/records. We attribute this adjustment to an increase in the number of submissions we received over the last few years. We do not include burden for §§ 900.12(c)(1) and (3), 900.3(f)(1), and 900.24(c) because if a certifying State had its approval withdrawn, FDA would take over certifying authority for the

affected facilities. Because FDA already has all the certifying State's electronic records, we assume no additional reporting burden.
