[Docket No. RP21-1143-000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Petition for **Declaratory Order**

Take notice that on September 21, 2021, pursuant to Rule 207(a)(2) of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.207(a)(2) (2019) and section 284.502(b)(1) of the Commission's regulations, ¹ Transcontinental Gas Pipe Line Company, LLC (Transco) filed a petition requesting that the Commission issue a declaratory order: (1) Granting Transco authorization to charge marketbased rates for the natural gas storage services performed at its Washington Storage Field in Louisiana; and (2) approving waivers of Sections 284.7(e) and 284.10 of the Commission's regulations, which require that natural gas companies providing Part 284 storage services charge reservation fees that recover all fixed costs based on the Straight-Fixed Variable rate design methodology. Transco also requests that the Commission grant Transco the requested authorization and waivers no later than March 1, 2022, all as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214).

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at http://www.ferc.gov. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the Federal Register, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (http:// www.ferc.gov) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance with any FERC Online service, please email FERCOnline Support@ferc.gov, or call(866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern time on October 21, 2021.

Dated: September 24, 2021.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP20-493-000]

Tennessee Gas Pipeline Company, L.L.C.; Notice of Availability of the **Final Environmental Impact Statement** for the Proposed; East 300 Upgrade **Project**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the East 300 Upgrade Project, proposed by Tennessee Gas Pipeline Company, L.L.C. (Tennessee) in the above-referenced docket. Tennessee requests authorization to modify two existing compressor stations and construct one new compressor station in Pennsylvania and New Jersey to create 115 million cubic feet per day of firm transportation capacity on Tennessee's existing 300 Line for Consolidated Edison Company of New York, Inc.

The final EIS assesses the potential environmental effects of the construction and operation of the East 300 Upgrade Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The EIS is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding.

The final EIS responds to comments that were received on the Commission's February 19, 2021 environmental assessment (EA) and July 2, 2021 draft EIS 1 and discloses downstream greenhouse gas emissions for the project. With the exception of climate change impacts, the FERC staff concludes that approval of the proposed project, with the mitigation measures recommended in this EIS, would not result in significant environmental impacts. FERC staff continues to be unable to determine significance with regards to climate change impacts.

The final EIS incorporates the abovereferenced EA, which addressed the potential environmental effects of the construction and operation of the following project facilities:

 Modifications at existing Compressor Station 321 in Susquehanna County, Pennsylvania, including the installation of one Solar Taurus 70

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

¹ The project's EA is available on eLibrary under accession no. 20210219-3034 and the draft EIS is available under accession no. 20210702-3037.

^{1 18} CFR 284.502(b)(1) (2020).

turbine with an International Organization for Standardization (ISO) rating of 11,107 horsepower and auxiliary facilities;

 modifications at existing Compressor Station 325 in Sussex County, New Jersey, including installation of one Solar Titan 130 turbine with an ISO rating of 20,500 horsepower and auxiliary facilities; and

 construction of the new Compressor Station 327 equipped with a single 19,000-horsepower electric-driven compressor unit and associated auxiliary facilities in Passaic County,

New Jersey.

The Commission mailed a copy of the Notice of Availability of the Final Environmental Impact Statement for the Proposed East 300 Upgrade Project to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The final EIS is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (https://www.ferc.gov/industriesdata/natural-gas/environment/ environmental-documents). In addition, the final EIS may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (https:// elibrary.ferc.gov/eLibrary/search), select "General Search," and enter the docket number in the "Docket Number" field (i.e., CP20-493). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Additional information about the project is available from the Commission's Office of External Affairs. at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and

rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to https://www.ferc.gov/ ferc-online/overview to register for eSubscription.

Dated: September 24, 2021.

[Docket No. AD21-11-000]

Reliability Technical Conference; Supplemental Notice of Technical Conference

As announced in the Notice of Technical Conference and the Supplemental Notice of Technical Conference issued in this proceeding on March 5, 2021 and August 6, 2021 respectively, the Federal Energy Regulatory Commission (Commission) will convene its annual Commissionerled Reliability Technical Conference on Thursday, September 30, 2021 from approximately 8:30 a.m. to 5:00 p.m. Eastern time. The purpose of this conference is to discuss policy issues related to the reliability of the Bulk-Power System. The conference will be held virtually via WebEx.

The final agenda with confirmed speakers for this event is attached. The conference will be open for the public to attend virtually, and there is no fee for attendance. Information on the technical conference will also be posted on the Calendar of Events on the Commission's website, http:// www.ferc.gov, prior to the event. The conference will be transcribed. Transcripts of the conference will be available for a fee from Ace-Federal Reporters, Inc. (202) 347-3700.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov, call toll-free (866) 208-3372 (voice) or (202) 208-8659 (TTY), or send a fax to (202) 208-2106 with the required accommodations.

For more information about this technical conference, please contact Lodie White at Lodie.White@ferc.gov or (202) 502-8453. For information related to logistics, please contact Sarah McKinley at Sarah.Mckinley@ferc.gov or (202) 502-8368.

Dated: September 24, 2021.
