

sewn or otherwise assembled in one or more AGOA or CBTPA beneficiary countries from fabric or yarn that is not formed in the United States or a beneficiary country, if it has been determined that such fabric or yarns cannot be supplied by the domestic industry in commercial quantities in a timely manner and the President has proclaimed such treatment. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the AGOA and the CBTPA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures that it will follow in considering requests. 66 FR 13502.

On May 23, 2001 the Chairman of CITA received a petition from ICF Industries, Inc. alleging that rayon filament yarn, classified in HTSUS subheading 5403.31 and 5403.32 cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting that the President proclaim quota- and duty-free treatment under the AGOA and CBTPA for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more AGOA or CBTPA beneficiary countries from U.S. formed fabric of such yarn.

CITA is soliciting public comments regarding this request, particularly with respect to whether these yarns can be supplied by the domestic industry in commercial quantities in a timely manner. Also relevant is whether other products that are supplied by the domestic industry in commercial quantities in a timely manner are substitutable for the yarn for purposes of the intended use. Comments must be received no later than June 15, 2001. Interested persons are invited to submit six copies of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC 20230.

If a comment alleges that rayon filament yarn can be supplied by the domestic industry in commercial quantities in a timely manner, CITA will closely review any supporting documentation, such as a signed statement by a manufacturer of the yarn stating that it produces the yarn that is in the subject of the request, including the quantities that can be supplied and the time necessary to fill an order, as

well as any relevant information regarding past production.

CITA will protect any business confidential information that is marked business confidential from disclosure for the full extent permitted by law. CITA will make available to the public non-confidential versions of the request and non-confidential versions of any public comments received with respect to a request in room 3100 in the Herbert Hoover Building, 14th and Constitution Avenue, N.W., Washington, DC 20230. Persons submitting comments on a request are encouraged to include a non-confidential version and a non-confidential summary.

BILLING CODE 3510-DR-F

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Denial of Short Supply Request under the United States—Caribbean Basin Trade Partnership Act (CBTPA)

May 24, 2001.

AGENCY: Committee for the Implementation of Textile Agreements (CITA)

ACTION: Denial of the petition alleging 100 percent polyester yarn of 150 denier/140 filament textured polyester containing one end of 75/70 cationic dyeable polyester intermingled with one end of 75/70 disperse dyeable polyester, for use in knit fabric, cannot be supplied by the domestic industry in commercial quantities in a timely manner.

FOR FURTHER INFORMATION CONTACT: Lori Mennitt, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUMMARY: On March 26, 2001 the Chairman of CITA received a petition from Val D'or and Malden Mills alleging that 100 percent polyester yarn of 150 denier/140 filament textured polyester containing one end of 75/70 cationic dyeable polyester intermingled with one end of 75/70 disperse dyeable polyester, for use in knit fabric, classified in subheading 5402.33.60 of the Harmonized Tariff Schedule of the United States (HTSUS), cannot be supplied by the domestic industry in commercial quantities in a timely manner. It requested that the President proclaim that apparel articles of U.S. formed fabrics of such yarns be eligible for preferential treatment under the

CBTPA. Based on currently available information, CITA has determined that U.S. producers have the ability to supply this product in commercial quantities in a timely manner and therefore denies the petition.

SUPPLEMENTARY INFORMATION:

Authority: Section 213(b)(2)(A)(v)(II) of the Caribbean Basin Economic Recovery Act, as added by Section 211(a) of the CBTPA; Section 6 of Executive Order No. 13191 of January 17, 2001.

Background

The CBTPA provides for quota- and duty-free treatment for qualifying textile and apparel products. Such treatment is generally limited to products manufactured from yarns or fabrics formed in the United States or a beneficiary country. The CBTPA also provides for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries from fabric or yarn that is not formed in the United States or a CBTPA beneficiary country, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner and the President has proclaimed such treatment. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the CBTPA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures that it will follow in considering requests. (66 FR 13502).

On March 26, 2001 the Chairman of CITA received a petition from Val D'or and Malden Mills alleging that 100 percent polyester yarn of 150 denier/140 filament textured polyester containing one end of 75/70 cationic dyeable polyester intermingled with one end of 75/70 disperse dyeable polyester, for use in knit fabric, classified in subheading 5402.33.60 of the HTSUS, cannot be supplied by the domestic industry in commercial quantities in a timely manner. They requested that the President proclaim that apparel articles of U.S. formed fabrics of such yarns be eligible for preferential treatment under the CBTPA. CITA solicited public comments regarding this request (66 FR 17534, published on April 2, 2001) particularly with respect to whether this yarn can be supplied by the domestic industry in commercial quantities in a timely manner.

Based on its review of the petition and the information received, CITA has determined that the petition has not established that this yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. CITA finds that there is substantial U.S. capacity to produce this yarn, and the petition does not demonstrate the contrary. CITA concludes in the context of this petition that U.S. producers have the ability to supply this yarn in commercial quantities in a timely manner. Val D'or and Malden Mills' request is denied.

BILLING CODE 5001-08-M

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board Task Force on Intelligence Needs for Homeland Defense Chemical Panel will meet in closed session on June 5-6, 2001, in Las Vegas, Nevada. This Task Force will consider a broad spectrum of intelligence issues as they relate to chemical warfare issues, from early threat detection to deterrence, through response including attribution.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Task Force will review and evaluate the Department's ability to

evaluate the collection and analysis of target-related information and weapon unique information relative to chemical warfare issues; examine the role of HUMINT against these missions as well as the technology that the HUMINT collectors need to be equipped with; consider strategic indications and warning and tactical warning dissemination and how the two need to be merged; analyze methodology to correlate large data flows spatially, temporally and functionally; and assess the robustness of today's intelligence apparatus for coping with these challenges.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C., App. II), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, this meeting will be closed to the public.

Dated: May 10, 2001.
