SUPPLEMENTARY INFORMATION: The proposed information collection in Docket No. RD11-10-000 relates to Reliability Standard, FAC-008-3—Facility Ratings, developed by the North American Electric Reliability Corporation (NERC) and approved by the Commission in an order dated November 17, 2011, with a January 1, 2013 effective date for the mandatory compliance with the revised Reliability Standard.¹ Reliability Standard FAC-008-3 modifies the currently effective version Reliability Standard FAC-008-1 and subsumes Reliability Standard FAC-009-1. Concurrent with the effective date of FAC-008-3, Reliability Standards FAC-008-1 and FAC-009-1 will be retired. The information collection requirements contained in Reliability Standards FAC-008 and FAC-009 are contained in FERC-725A (OMB Control Number 1902-0244).

There is a net increase in information collection and reporting that will result from implementing Reliability Standard FAC-008-3 and retiring the two superseded Reliability Standards. The breakdown is as follows:
