AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice

SUMMARY: The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed revisions to the Post Enrollment Data Collection System (PEDCS) by the Office of Job Corps/ETA in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506(c)(2)(A)] (PRA).

Job Corps is revising the data collection system for post enrollment student outcomes to comply with the reporting provisions of the Workforce Innovation and Opportunity Act (WIOA). Currently, Job Corps is soliciting comments concerning the revision of data collection regarding the Post Enrollment Data Collection (PEDC) of Job Corps Participants, using post-center surveys of Job Corps graduates and former enrollees (OMB Control Number 1205-0426). The current OMB approval expires December 31, 2018.

This **Federal Register** Notice helps ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

SUPPLEMENTARY INFORMATION:

I. Background

Job Corps is an intensive, residential training program for at-risk youth ages 16 through 24. It addresses multiple barriers to employment faced by youth throughout the United States. Job Corps has been operating under the authorization of the Workforce Investment Act, which is now being replaced by Title I, Subtitle C, of the Workforce Innovation Opportunity Act (WIOA). The WIOA, in Section 116, amends the performance accountability system to replace the current indicators of performance for Job Corps centers and programs with the same primary indicators of performance that are applicable to the youth formula programs.

The program is principally carried out through a nationwide network of 126 Job Corps centers. The centers are located at facilities either owned or

³ The Commission has the authority to toll statutory deadlines during a period when the Federal government is closed. Because the Commission was closed on January 25 and 26, 2016 due to inclement weather in Washington, DC, the Commission tolled the statutory deadline for these investigations by two days.

leased by the federal government. The Department has a direct role in the operation of Job Corps, and does not serve as a pass-through agency for this program. It is the Department's responsibility to establish Job Corps centers and to select operators for them. Of the 126 current centers, 27 are operated by the United States Department of Agriculture, through an interagency agreement. The remaining 99 centers are managed and operated by large and small corporations, and nonprofit organizations selected by the Department in accordance with the Federal Acquisition Regulations, and in most cases, through a competitive procurement process. Many of the current contractors manage and operate more than one center.

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for an agency to properly perform its functions, including whether the information will have practical utility;
- evaluate the agency's accuracy in estimating the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of information collection on those who respond—including information obtained through appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

III. Current Actions

This submission requests comments on the data collection instruments that will be used to collect post-enrollment data about individuals who are no longer actively participating in Job Corps. These individuals either graduated from Job Corps, or demonstrated their commitment by

either completing the Career Preparation Period (CPP) or participating in the program for at least 60 days (former enrollees).

The data collection instrument for graduates and former enrollees is called the Post Enrollment Data Collection System (PEDCS). Administration of the PEDCS will facilitate the key data collection of post enrollment outcomes during the second and fourth quarters after exit. This submission also requests approval for two brief questionnaires (one for employers and one for schools or training institutions) that will be used to collect verification data about initial placement and effectiveness in serving employers.

The current post-enrollment survey system contacts Job Corps graduates and former enrollees at 13 weeks after initial job placement, and graduates at 6 and 12 months after initial placement. In adherence to the new WIOA requirements, the proposed PEDCS will collect post-enrollment outcomes from Job Corps graduates and former enrollees at the 2nd quarter and 4th quarter following exit. Job Corps will use the information collected through the proposed PEDCS to report the following five of the six primary WIOA performance metrics from Section 116:

- The percentage of program participants who are in unsubsidized employment during the second quarter after exit from the program;
- the percentage of program participants who are in unsubsidized employment during the fourth quarter after exit from the program;
- the median earnings of program participants who are in unsubsidized employment during the second quarter after exit from the program;
- the percentage of program participants who obtain a recognized postsecondary credential, or a secondary school diploma or its recognized equivalent (and, for those with a secondary school diploma or its recognized equivalent, have obtained or retained employment or are in an education or training program leading to a recognized postsecondary credential),

during participation in or within one year after exit from the program; and

- the indicator(s) of effectiveness in serving employers.

Job Corps will also use the information collected from the proposed PEDCS to cover the following additional reporting requirements mandated by WIOA:

- The number of graduates who entered the Armed Forces;
- the number of graduates who entered apprenticeship programs;
- the number of graduates who received a regular secondary school diploma;
- the number of graduates who received a State recognized equivalent of a secondary school diploma;
- the number of graduates who entered unsubsidized employment related to the career and technical education and training received through the Job Corps program;
- the number of graduates who entered unsubsidized employment not related to the education and training received;
- the percentage and number of graduates who enter postsecondary education;
- the average wage of graduates who enter unsubsidized employment—
 - (1) on the first day of such employment; and
 - (2) on the day 6 months after such first day.

To maximize the comparability of the data collected from the different subgroups of students, the second and fourth quarter data collection instrument will use modules with identical sets of questions on the same topics.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authorization for the Pharmacy Billing Requirements information collection. The OWCP is the agency responsible for administration of the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 *et seq.*; the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 *et seq.*; and the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384 *et seq.* All three of these statutes require the OWCP to pay for covered medical treatment provided to beneficiaries; this medical treatment can include medicinal drugs dispensed by pharmacies. In order to determine whether amounts billed for drugs are appropriate, the OWCP must receive the required data elements—including the name of the patient/beneficiary, the National Drug Code number of each drug prescribed, the quantity provided, the prescription number, and the date the prescription was filled. The regulations implementing these statutes require the collection of information needed to enable the OWCP to determine whether bills for drugs submitted directly by pharmacies or as reimbursement requests submitted by claimants should be paid. See 20 CFR 10.801, 30.701, 725.701, and 725.705. FECA section 9, BLBA section 413, and EEOICPA section 3629(c) authorize this information collection. See 5 U.S.C. 8103, 30 U.S.C. 936, and 42 U.S.C. 7384t.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1240-0050.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 19, 2015 (80 FR 50327).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1240-0050. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
