SUPPLEMENTARY INFORMATION:

I. Abstract

In accordance with Executive Order 12862, the National Institute of Standards and Technology (NIST), a non-regulatory agency of the Department of Commerce, proposes to conduct a number of data collection efforts—both quantitative and qualitative—to determine requirements and evaluate usability and utility of NIST research for measurement and standardization work. These data collection efforts may include, but may not be limited to electronic methodologies, empirical studies, video and audio data collections, interviews, and questionnaires. For example, data collection efforts will be conducted at search and rescue training exercises for rescue workers using robots. Other planned data collection efforts include evaluations of software for use by the intelligence community. Participation will be strictly voluntary. The regulated information will not be collected. The results of the data collected will be used to guide NIST research. Steps will be taken to ensure anonymity of respondents in each activity covered under this request.

II. Method of Collection

NIST will collect this information by electronic means when possible, as well as by mail, fax, telephone, and person-to-person interviews.

III. Data

OMB Number: 0693-0043.

Form Numbers: None.

Type of Review: Regular submission.

Affected Public: Individuals or households; State, local or tribal government, Federal government.
