SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request a 3-year approval from the Office of Management and Budget (OMB) for a new survey, the Business Pulse Survey. During the Coronavirus pandemic, the Census Bureau launched new weekly and monthly programs to measure the pandemic's impact on the economy. The Census Bureau was commended by policy makers, media, academia, and other stakeholders on its timeliness and rapid response to their data needs to understand the impact of the pandemic on the economy. The Census Bureau has a need to collect and publish economic baseline data on a frequent, ongoing basis.

The Business Pulse Survey will be a new experimental survey with bi-weekly data collection and publication. This continuous near real time data publication will provide a baseline of the U.S. economy and will measure change as a result of current and future economic shocks. The ongoing nature of the Business Pulse Survey is in response to stakeholder feedback on the Small Business Pulse Survey (SBPS), which was that economic baseline or 'norms' data would have been helpful to have in comparison to the SBPS data on pandemic impact.

The Business Pulse Survey will evolve and progress to its full desired scope over time, in stages or phases. The Census Bureau plans to learn from the incremental progress of the Business Pulse Survey and make improvements to the survey as it matures. Initially, the Business Pulse Survey will be an expansion of the Small Business Pulse Survey (OMB Number: 0607-1014). The SBPS was restricted to small businesses with 1-499 employees and included only a single island territory, Puerto Rico. The Business Pulse Survey's initial sample criteria will include all single unit employer businesses in the U.S. and U.S. Island Areas. At full scope, the Business Pulse Survey will allow for data collection from businesses across most non-farm sectors of the U.S. economy, while producing statistics on employer and non-employer businesses across all employer size classes, as well as geographically detailed data on the fifty U.S. states, Washington DC, and the U.S. Island Areas.

The Business Pulse Survey will collect the following high-level topics:

- Overall current business performance or business climate
- Change in operating revenues/sales/receipts
- Change in employment
- Change in hours of paid employees

• Expectations: Future performance
Business Pulse Survey data would be collected in near-real time and disseminated as experimental products. Business Pulse Survey data will be experimental with the goal of meeting Census Bureau quality standards for regularly occurring, non-experimental statistics.

II. Method of Collection

The data will be collected by paper or electronic instruments, depending on whether respondent email is available.
