

from the Scientific/Technical Advisory Committee (STAC).

The petition form is amended slightly to reflect a WTC Health Program policy change. The current form asks respondents to offer reference to "a peer-reviewed, published, epidemiologic study." The revised form will ask respondents to reference "peer-reviewed, published, epidemiologic and/or direct observational studies."

The submission of a petition is purely voluntary, and is not required or otherwise compelled by NIOSH or the WTC Health Program. NIOSH expects to receive no more than 20 submissions annually.

Petitioners include prospective and enrolled WTC responders, screening-eligible survivors, certified-eligible survivors, or members of groups who advocate on behalf of responders or

survivors, such as physicians. We estimate that an individual spends an average of 40 hours gathering information to substantiate a request to add a health condition and assembling the petition.

There is no cost to respondents other than their time. The total estimated annualized burden hours are 800.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (hours)	Total burden hours
Responder/Survivor/Advocate (physician).	Petition for the addition of health conditions.	20	1	40	800
Total	800
