Oklahoma: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The State of Oklahoma has applied to EPA for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant Final authorization to the State of Oklahoma.

In the “Rules and Regulations” section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the direct final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the direct final rule. Unless we get written comments which oppose this authorization during the comment period, the direct final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we receive comments that oppose this action, we will withdraw the direct final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

DATES: Send your written comments by June 28, 2013.

ADDRESSES: Send written comments to Alima Patterson, Region 6, Regional Authorization Coordinator, (6PD–O), Multimedia Planning and Permitting Division, at the address shown below. 1. The Wireline Competition Bureau (Bureau) announces the next version of the Connect America Cost Model (CAM v3.1.2), which allows Commission staff and interested parties to calculate costs based on a series of inputs and assumptions for Connect America Phase II implementation. CAM v3.1.2 builds on version 3.1 of the model (CAM v3.1) by modifying cable coverage to reflect census blocks served by cable providers (based on the National Broadband Map, data as of June 2012) that have reported voice subscriptions on FCC Form 477 (data as of June 2012). Previous versions of the model only provided the capability to filter out cable providers shown on the National Broadband Map as providing broadband service meeting a specified speed—regardless of whether they also provide voice services—when identifying blocks eligible for funding. CAM v3.1.2 also makes minor adjustments to the fixed wireless voice coverage.

2. The Bureau also announces that it is seeking additional input on a number of issues in the ongoing virtual workshop. The Bureau adds a discussion topic to the virtual workshop entitled “Finalizing Input Values for Connect America Cost Model Cost Estimation Module” to seek comment on whether the values used in the input collections for the cost estimation module in CAM v3.1.2 are reasonable values to use in the final version of the cost model that the Bureau will ultimately adopt.

3. Among other things, the Bureau seeks focused public input on the
