

shall remain in effect until publication of the final results of the next administrative review.

Notification of Interested Parties

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO as explained in the administrative protective order itself. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

These final results of administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 16, 2006.

David M. Spooner,

Assistant Secretary for Import Administration.

Stainless Steel Sheet and Strip in Coils from Taiwan: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATE: March 22, 2006.

FOR FURTHER INFORMATION CONTACT: Melissa Blackledge or Karine Gziryman, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-3518 or (202) 482-4081, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 29, 2005, the Department of Commerce (the Department) published a notice of initiation of an administrative review of the antidumping duty order on stainless steel sheet and strip in coils from Taiwan, covering the period July 1, 2004, through June 30, 2005. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 70 FR 51009. The preliminary results of review are currently due no later than April 3, 2006.

Extension of Time Limit for Preliminary Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245-day time limit for the preliminary determination to a maximum of 365 days and the time limit for the final determination to 180 days (or 300 days if the Department does not extend the time limit for the preliminary determination) from the date of publication of the preliminary determination.

We determine that it is not practicable to complete the preliminary results of this review within the original time limit because the review involves examining certain complex cost issues. Therefore, the Department is fully extending the time limit for completion of the preliminary results until no later than July 31, 2006, which is 365 days from the last day of the anniversary month of the date of publication of the order. The deadline for the final results of this administrative review continues to be 120 days after the publication of the preliminary results.

This notice is issued and published in accordance with section 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: March 16, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

I. Abstract

Recreational catch reporting supplements existing data collection programs and provides important data used to monitor catches of highly migratory species. The data collected through this program are currently used for both domestic and international management and stock assessment purposes. The intent of Atlantic bluefin tuna (BFT) catch reporting is to provide real-time catch information for monitoring the recreational BFT fishery. Under the Atlantic Tunas Convention Act of 1975 (ATCA, 16 U.S.C. 971), the United States is required to abide by recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT), including a specified BFT quota. This program supports BFT management and scientific research authorized under ATCA and the Magnuson Stevens Fishery Conservation and Management Act (MSFMA, 16 U.S.C. 1801 et seq.). Recreational anglers are required to report specific information regarding
