#### SUPPLEMENTARY INFORMATION:

##### I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS)/Immigration and Customs Enforcement (ICE) have relied on preexisting Privacy Act systems of records notices (SORN) for the collection and maintenance of records that concern information pertaining to

aliens who are removable pursuant to the Immigration and Nationality Act.

As part of its efforts to streamline and consolidate its record systems, DHS is updating and reissuing a legacy Immigration and Naturalization Service system of records under the Privacy Act (5 U.S.C. 552a) that deals with aliens who are removable and have been removed from the United States. This record system will allow DHS/ICE to continue to collect and maintain records regarding individuals removed or deemed removable by DHS/ICE. The collection and maintenance of this information assists DHS/ICE in meeting its obligation to manage the status and/or disposition of removed and removable aliens.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of records notices, DHS is giving notice that it proposes to update and reissue the following legacy record system, Justice/INS-012 Deportable Alien Control System (65 FR 46738 July 31, 2000), as a DHS/ICE system of records notice titled, DHS/ICE-011 Removable Alien Records System. Categories of individuals and categories of records have been reviewed, and the routine uses of this legacy system of records notice have been updated to better reflect the DHS/ICE removable alien records. The exemptions for the legacy system of records notices will continue to be applicable until the notice of proposed rulemaking and the final rule for this SORN have been completed. This new system will be included in DHS's inventory of record systems.

##### II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained
