SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this data collection is to provide information on the value of Hawaii's coral reef habitats to specific segments of the U.S. population. This is a national survey using a panel based on a nationally representative, list-assisted, random digit-dial (RDD) sample drawn from all 10-digit telephone numbers in the U.S. The survey is designed to yield information that can be used to estimate non-use or passive economic use values for Hawaii's coral reef ecosystems. The survey addresses the public's preferences and economic values regarding the use of no-take areas as a management tool and their preferences regarding several alternative methods of restoring damaged coral reefs. A large scale pre-test of the survey has been conducted (200 survey responses) under OMB Approval Number 0648-0531, expiration date 8/31/2006.

II. Method of Collection

Members of the panel will complete the survey on-line using either WebTV technology supplied by Knowledge Networks, Inc. or their own Internet service.
