

Further, NYSE proposes to amend NYSE Rule 1000 to reflect that the pilot is not limited to a one-week period.

## 2. Statutory Basis

The NYSE believes that the basis under the Act for this proposed rule change is Section 6(b)(5) of the Act,<sup>12</sup> which requires that an exchange have rules that are designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

## B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

## C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments regarding the proposed rule change.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change: (i) Does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) does not become operative for 30 days (or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest) after the date of the filing, the proposed rule change has become effective pursuant to section 19(b)(3)(A) of the Act<sup>13</sup> and Rule 19b-4(f)(6) thereunder.<sup>14</sup> At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

The NYSE has requested a waiver of the five-day written notice and the 30-day operative delay requirements. The Commission believes that waiving the five day pre-filing requirement and the 30-day operative delay will allow the NYSE to continue, without undue

interruption, to assess the impact on the autoquoting of bids and offers in connection with the LiquidityQuote initiative in five actively-traded stocks without the impact of NYSE Direct+.<sup>15</sup>

## IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room in 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of such filing will also be available for inspection and copying at the principal office of the NYSE.

All submissions should refer to SR-NYSE-2003-20 and should be submitted by July 1, 2003.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>16</sup>

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-47975; File No. SR-Phlx-2003-25]

## Self-Regulatory Organizations; Order Approving a Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to Automatic Price Improvement for Buy Orders in Securities Exempt for the Short Sale Rule

June 4, 2003.

## I. Introduction

On April 3, 2003, the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> a proposed rule change to amend Supplementary Material .07 to Phlx Rule 229 to modify the Exchange's Automatic Price Improvement ("API") program to allow specialists to choose to improve buy orders in securities that are exempted from or otherwise not subject to the "tick" requirements of Rule 10a-1 under the Act<sup>3</sup> (the "Short Sale Rule"). The proposed rule change was published for comment in the **Federal Register** on April 28, 2003.<sup>4</sup> The Commission received no comment letters on the proposed rule change. This order approves the proposed rule change.

## II. Description of the Proposal

The Exchange's API program allows specialists to provide automatic price improvement to automatically executable market and marketable limit orders in New York Stock Exchange, Inc. and American Stock Exchange LLC ("Amex") listed securities received through Phlx's Automated Communication and Execution System ("PACE")<sup>5</sup> for 599 shares or less of

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> 17 CFR 240.10a-1. Paragraph (a) of Rule 10a-1 covers transactions in any security registered on a national securities exchange, if trades in such security are reported pursuant to an "effective transaction reporting plan" ("Reported Securities"). A short sale of a Reported Security listed on a national securities exchange may not be effected at a price either: (1) below the last reported price of a transaction reported in the consolidated transaction reporting system ("minus tick"); or (2) at the last reported price if that price is lower than the last reported different price ("zero-minus tick").

<sup>4</sup> See Securities Exchange Act Release No. 47714 (April 22, 2003), 68 FR 22447.

<sup>5</sup> PACE is the Exchange's automated order routing, delivery, execution and reporting system for listed securities. See Phlx Rule 229.

<sup>13</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>14</sup> 17 CFR 240.19b-4(f)(6).

<sup>15</sup> For purposes only of accelerating the operative date of this proposal, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

<sup>16</sup> 17 CFR 200.30-3(a)(12).

either \$.01 or a percentage of the PACE Quote when the order is received.<sup>6</sup> Specialists may choose to offer API in each individual specialty security. If a specialist offers API in an individual security, then the specialist must offer it to all customers and all eligible market orders in that security. Participation in the API program and PACE is voluntary.

Currently, API is not available to certain buy orders if the execution price of those buy orders would be on a minus or zero-minus tick.<sup>7</sup> The Exchange has proposed to amend Supplementary Material .07 to Phlx Rule 229 to modify the Exchange's API program to allow specialists to choose to improve buy orders in securities that are exempted from or otherwise not subject to the "tick" requirements of the Short Sale Rule.<sup>8</sup>

### III. Discussion

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.<sup>9</sup> In particular, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act,<sup>10</sup> which requires, among other things, that the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market, and to protect investors and the public interest. The Commission believes that expanding the types of securities that may receive API to include those securities that are not subject to the "tick" requirements of the Short Sale Rule should allow customers to receive more opportunities for price improvement.

The Exchange has stated that it will issue a regulatory circular informing its members which securities are currently exempt from the "tick" requirements of the Short Sale Rule and thus available for API under the rule change. At this time, securities that trade on the Exchange that the Commission has exempted from the "tick" requirements of the Short Sale Rule include

Exchange-Traded Funds ("ETFs")<sup>11</sup> and certain Trust Issued Receipts ("TIRs").<sup>12</sup>

### IV. Conclusion

For the foregoing reasons, the Commission finds that the proposed rule change is consistent with the requirements of the Act and rules and regulations thereunder.

*It is therefore ordered*, pursuant to section 19(b)(2) of the Act,<sup>13</sup> that the proposed rule change (SR-Phlx-2003-25) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>14</sup>
