A. Program Description

The Tribal Transit Program is authorized by Federal Public Transit law at 49 U.S.C. 5311(c)(1)(A), contingent on full appropriations. The program authorizes grants "under such terms and conditions as may be established by the Secretary" to Indian tribes for any purpose eligible under FTA's Formula Grants for Rural Areas

Program, 49 U.S.C. 5311. Tribes may apply for this funding directly.

The primary purpose of these competitively selected grants is to support planning, capital, and, in limited circumstances, operating assistance for tribal public transit services. Funds distributed to Indian tribes under the Tribal Transit Program should NOT replace or reduce funds that Indian tribes receive from States through FTA's Formula Grants for Rural Areas Program. Specific project eligibility under this competitive allocation is described in Section C of this notice.

B. Federal Award Information

Five million dollars is authorized for the Tribal Transit Program competitive allocation in FY 2019 to projects selected pursuant to the process described in the following sections. Federal awards under this competitive program will be in the form of grants. Additionally, there is a \$25,000 cap on planning grant awards, and FTA has the discretion to cap capital and operating awards.

C. Eligibility Information

1. Eligible Applicants

Eligible applicants include federally recognized Indian tribes or Alaska Native villages, groups, or communities as identified by the U.S. Department of the Interior (DOI) Bureau of Indian Affairs (BIA). As evidence of Federal recognition, an Indian tribe may submit a copy of the most up-to-date **Federal Register** notice published by BIA: Entities Recognized and Eligible to Receive Service from the United States Bureau of Indian Affairs. To be an eligible recipient, an Indian tribe must have the requisite legal, financial, and technical capabilities to receive and administer Federal funds under this program. Additionally, applicants must be located and provide service in a rural area with a population of 50,000 or less. A service area can include some portions of urban areas, as long as the tribal transit service begins in and serves rural areas. An applicant must be registered in the System for Award Management (SAM) database and maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by FTA.

2. Cost Sharing or Matching

There is a 90 percent Federal share for projects selected under the Tribal Transit Program competitive program, unless the Indian tribe can demonstrate
