Proposed Project: Confidentiality of Alcohol and Drug Abuse Patient Records—(OMB No. 0930-0092, extension, no change)—Statute (42 U.S.C. 290dd-2) and regulations (42 CFR part 2) require federally conducted, regulated, or directly or indirectly assisted alcohol and drug abuse programs to keep alcohol and drug abuse patient records confidential. Information requirements are (1) written disclosure to patients about Federal laws and regulations that protect the confidentiality of each patient, and (2) documenting "medical personnel" status of recipients of a disclosure to meet a medical emergency. The annual burden estimates for these requirements are summarized in the table below.

	Annual respondents	Responses per respondent	Burden per response (in hours)	Annual burden hours
Disclosure, 42 CFR 2.22	11,250	130	.175	255,938
Recordkeeping, 42 CFR 2.51	11,250	2	.170	3,938

Proposed Project: SAMHSA Application for Peer Grant Reviewers—OMB No. 0930-0255, extension, no change—section 501(h) of the Public Health Service (PHS) Act (42 U.S.C. 290aa) directs the Administrator of the Substance Abuse and Mental Health Services Administration (SAMHSA) to establish such peer review groups as are needed to carry out the requirements of

Title V of the PHS Act. SAMHSA administers a large discretionary grants program under authorization of Title V, and for many years SAMHSA has funded grants to provide prevention and treatment services related to substance abuse and mental health.

Recent efforts to make improvements in the grants process have been shown by the restructuring of discretionary award announcements. In support of these efforts, SAMHSA desires to expand the types of reviewers it uses on these grant review committees. To accomplish that end, SAMHSA has determined that it is important to proactively seek the inclusion of new and qualified representatives on its peer review groups, and accordingly SAMHSA has developed an application form for use by individuals who wish to apply to serve as peer reviewers.

The application form has been developed to capture the essential information about the individual applicants. Although consideration was given to requesting a resume from interested individuals, it is essential to have specific information from all applicants about their qualifications; the most consistent method to accomplish this is completion of a standard form by all interested persons. SAMHSA will use the information about knowledge, education and experience provided on the applications to identify appropriate peer grant reviewers. Depending on their experience and qualifications, applicants may be invited to serve as either grant reviewers or review group chairpersons.

The following table shows the annual response burden estimate.

Number of respondents	Responses/respondent	Burden/response (hrs.)	Total burden hours
500	1	1.5	750

Proposed Project: Community Mental Health Centers (CMHC) Construction Grantee Checklist—(OMB No. 0930-0104, extension, no change)—Recipients of Federal CMHC construction funds are obligated to use the constructed facilities to provide mental health services. The CMHS Act was repealed in 1981 except for the provision requiring grantees to continue using the facilities for mental health purposes for a 20-year period. In order for SAMHSA's Center for Mental Health Services to monitor compliance of construction grantees, the grantees are required to submit an annual report. This annual checklist enables grantees to supply necessary information efficiently and with a minimum of burden. The following table summarizes the annual burden for this program.

	Annual respondents	Responses/respondent	Hours per response	Annual burden
CMHS Grantee Construction Checklist (42 CFR 54.209(h), 42 CFR 54.213, 42 CFR 54.214)	6*	1	.42	3

* Average over the 3-year approval period as grantees with service obligations continue to complete their period of obligation.
