

Burden Hours: 41,667 hours annually.
Needs and Uses: The U.S. Census Bureau is committed to conducting research towards census and survey operations that costs less while maintaining high quality results. The Census Bureau requests an extension, without change, of our previous OMB approval to conduct a series of studies to research and evaluate how to improve data collection activities for data collection programs at the Census Bureau. These studies will explore how the Census Bureau can improve efficiency, data quality, and response rates and reduce respondent burden in future census and survey operations, evaluations and experiments. This research program is for respondent communication, questionnaire and procedure development and evaluation purposes. We will use data tabulations to evaluate the results of questionnaire testing.

Affected Public: Individuals or households, businesses or other for profit, farms.

Frequency: Once.

Respondent's Obligation: Voluntary or Mandatory, depending on cited authority.

Legal Authority: Data collection for this project is authorized under the authorizing legislation for the questionnaire being tested. This may be Title 13, Sections 131, 141, 161, 181, 182, 193, and 301 for Census Bureau sponsored surveys, and Title 13 and 15 for surveys sponsored by other Federal agencies. We do not now know what other titles will be referenced, since we do not know what survey questionnaires will be pretested during the course of the clearance.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0607–0971.

Certain Hot-Rolled Steel Flat Products From the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review; 2020–2021

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily finds that the producers or exporters subject to this review made sales of subject merchandise at less than normal value during the period of review (POR), October 1, 2020, through September 30, 2021. Commerce also determines that one mandatory respondent, did not make sales of subject merchandise at less than normal value during the POR. We invite interested parties to comment on these preliminary results.

DATES: Applicable November 1, 2022.

FOR FURTHER INFORMATION CONTACT: Christopher Williams or Thomas Schauer, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5166 or (202) 482–0410, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 3, 2016, Commerce published in the **Federal Register** an antidumping duty order on certain hot-rolled steel flat products (hot-rolled steel) from the Republic of Korea

(Korea).¹ On October 1, 2021, we published in the **Federal Register** a notice of opportunity to request an administrative review of the *Order*.² On November 29, 2021, based on timely requests for an administrative review, Commerce initiated an administrative review of 16 companies.³ On June 2, 2022, Commerce extended the time limit for issuing the preliminary results of this review by 120 days to no later than October 31, 2022.⁴

Scope of the Order

The products covered by this *Order* are hot-rolled steel from Korea. A full description of the scope of the *Order* is contained in the Preliminary Decision Memorandum.⁵

Methodology

Commerce is conducting this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act). Export price and constructed export price are calculated in accordance with section 772 of the Act. Normal value is calculated in accordance with section 773 of the Act.

For a full description of the methodology underlying these preliminary results, see the Preliminary Decision Memorandum. A list of the topics discussed in the Preliminary Decision Memorandum is attached as the appendix to this notice. The Preliminary Decision Memorandum is a public document and is made available to the public via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary

Rates for Non-Examined Companies

The statute and Commerce's regulations do not address the establishment of a rate to be applied to companies not selected for examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation, for guidance when calculating the rate for companies which were not selected for individual examination in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely on the basis of facts available.

In this review, we preliminarily calculated a weighted-average dumping margin for one of the mandatory respondents, Hyundai Steel Company (Hyundai Steel) that is not zero, *de minimis*, or determined entirely on the basis of facts available. Accordingly, because the second mandatory respondent, POSCO's⁶ margin is *de minimis*, Commerce preliminarily assigned to the companies not individually examined, listed in the chart below, a margin of 0.91 percent based on Hyundai Steel's calculated weighted-average dumping margin.

Preliminary Results of Review

We preliminarily determine that the following weighted-average dumping margins exist for the period October 1, 2020, through September 30, 2021:

⁶ We initiated this review with respect to the following companies: POSCO; POSCO Daewoo Corporation (PDW); and POSCO International Corporation. See *Initiation Notice*, 86 FR at 67688. We have previously found that POSCO International Corporation is the successor-in-interest to PDW, and we are treating POSCO and POSCO International Corporation as a single entity, hereinafter collectively referenced as POSCO. See *Certain Hot-Rolled Steel Flat Products from the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review; 2019–2020*, 86 FR 59985 (October 29, 2021), and accompanying Preliminary Decision Memorandum, at 6–13, unchanged in *Certain Hot-Rolled Steel Flat Products from the Republic of Korea: Final Results of Antidumping Duty Administrative Review; 2019–2020*, 87 FR 12660 (March 7, 2022).
