SUPPLEMENTARY INFORMATION:

Title: Rules Relating to the Operations and Activities of Commodity Pool Operators and Commodity Trading Advisors and to Monthly Reporting by Futures Commission Merchants (OMB Control No. 3038-0005). This is a request for revision of a currently approved information collection.

Abstract: Existing Rule 4.7 provides exemptive relief from the disclosure, reporting and recordkeeping requirements applicable to registered commodity pool operators (CPOs) and commodity trading advisors (CTAs) with respect to pools and accounts owned solely by qualified eligible participants (QEPs) and qualified eligible clients (QECs), respectively. The

relief that is provided reduces the regulatory requirements that apply to registered CPOs and CTAs. The proposed amendments to Rule 4.7 would expand this relief by bringing within the QEP and QEC definitions persons not included in the existing rules. Thus, the proposed amendments, if adopted, would further reduce the regulatory burdens on registered CPOs and CTAs.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981).

Burden statement: The respondent burden for this collection is estimated to average 7.25 hours per response. These estimates include the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; and transmit or otherwise disclose the information.

SUPPLEMENTARY INFORMATION:

Title: Regulations and Forms Pertaining to the Financial Integrity of the Marketplace (OMB Control No. 3038-0024). This is a request for extension of a currently approved information collection.

Abstract: The commodity futures markets play a vital role in the furthering of global commerce by providing commercial users and speculators with a price discovery mechanism for the commodities traded on such markets and by providing commercial users of the markets with a mechanism for hedging their goods and services against price risks. The Commodity Futures Trading Commission is the independent federal regulatory agency charged with providing various forms of customer protection so that users of the markets can be assured of the financial integrity of the markets and the intermediaries that they employ in their trading activities. Among the financial safeguards the Commission has imposed on commodity brokerages, technically futures commission merchants (FCMs) and introducing brokers (IBs), are minimum capital standards and, for FCMs, a requirement that they segregate and separately account for the funds they receive from their commodity customers. In order to monitor compliance with such financial standards, the Commission has required FCMs and IBs to file financial reports with the Commission and with the self-regulatory organizations (SROs) of

which they are members. (See Commission Rule 1.10, 17 CFR 1.10.)
