FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 97

[DA 06–79]

Amateur Service Rules

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document amends the Amateur Radio Service rules to conform with the international Radio Regulations adopted at the International Telecommunications Union *World Radiocommunication Conference Final Acts (Geneva, 2003) (WRC–03 Final Acts)*. The *WRC–03 Final Acts* revised the international regulations that apply to the amateur service and the amateur satellite service and became effective on July 5, 2003. These amendments ensure that the Commission's amateur service rules reflect the international regulations.

DATES: Effective May 3, 2006.

FOR FURTHER INFORMATION CONTACT: William T. Cross, Public Safety and Critical Infrastructure Division, Wireless Telecommunications Bureau, (202) 418–0680, TTY (202) 418–7233.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Order*, DA 06–79, adopted January 17, 2006, and released January 19, 2006. The complete text of this document is available for inspection and copying during normal business hours in the FCC's Reference Information Center, 445 12th Street, SW., Room CY–A257, Washington, DC. Alternative formats (Braille, large print, electronic files, audio format) are available for people with disabilities by sending an e-mail to FCC504@fcc.gov or, calling the Consumer and Government Affairs Bureau at (202) 418–0530 (voice), (202) 418–0432 (TTY). The Order also may be downloaded from the Commission's Web site at <http://www.fcc.gov/>.

1. In the Order the Commission adopted changes to its part 97 rules to conform the amateur service rules with the international Radio Regulations. The overall effect of this action is to update the part 97 Amateur Radio Service rules in the Code of Federal Regulations to conform to now-effective international agreements. Specifically, the Commission amended §§ 97.111(a)(1), 97.115(a)(2), 97.113(a)(4), 97.117, and revised the definition of International Morse code and various digital codes in § 97.3 of the Amateur Radio Service rules.

2. Section 97.111(a)(1) of the Commission's rules implements Radio Regulations Article 25.1. Previously, Article 25.1 stated “Radiocommunications between amateur stations of different countries shall be forbidden if the administration of one of the countries concerned has notified that it objects to such radiocommunications.” Article 25.1, as revised at WRC–03, now states “Radiocommunications between amateur stations of different countries shall be permitted unless the administration of one of the countries concerned has notified that it objects to such radiocommunications.” To conform § 97.111(a)(1) to the amended Radio Regulation, the Commission amended this section to state that amateur stations are authorized to make transmissions necessary to exchange messages with other stations in the amateur service, except those in any country whose administration has notified the ITU that it objects to such communications. The effect of this revision is to clarify that communications between FCC-licensed amateur stations and amateur stations of different countries shall be permitted unless the administration of one of the countries concerned has notified the ITU that it objects to such radiocommunications.

3. Section 97.115(a)(2) of the Commission's rules implements Radio Regulations Article 25.3. Previously, Article 25.3 stated “It is absolutely forbidden for amateur stations to be used for transmitting international communications on behalf of third parties.” Article 25.4, however, stated “The proceeding provision [Article 25.3] may be modified by special arrangements between the administrations of the countries concerned.” Article 25.3, as revised at WRC–03, now states “Amateur stations may be used for transmitting international communications on behalf of third parties only in case of emergencies or disaster relief. An administration may determine the applicability of this provision to amateur stations under its jurisdiction.” To conform § 97.115(a)(2) to the amended Radio Regulation, the Commission amended this section to allow amateur stations to transmit international third party communications to any station within the jurisdiction of any foreign government when transmitting emergency or disaster relief communications and, as previously permitted, to any station within the jurisdiction of any foreign government
