

vaults, piping and associated ancillary equipment are HLW in accordance with Section 3116 the NDAA. That determination and amended ROD are expected to be issued in calendar year 2006. The State of Idaho has stated that: The State will continue to coordinate with DOE and the NRC as appropriate regarding the classification of tank residuals under Section 3116 of the NDAA, as well as the classification of other wastes.

DOE plans to issue another amended ROD in 2009 that will contain DOE's decision on the final strategy for HLW calcine retrieval and the technology for additional treatment, if necessary, packaging and safe storage based on transportation and disposal requirements. Following that amended ROD, DOE would begin to manage the HLW calcine so it is ready to be moved out of Idaho for disposal by a target date of 2035, in accordance with the 1995 Settlement Agreement. Additionally, it is DOE's goal to complete calcine retrieval, packaging, additional treatment (if required) and shipping to a geologic repository for SNF/HLW by December 2035, as described in DOE's *Environmental Management Performance Management Plan for Accelerating Cleanup at INEEL*. In addition, the amended ROD will address closure of the bin sets and their associated facilities.

VII. Basis for Decision

Based on the analysis in the Final EIS, all of the waste processing alternatives that treat the SBW and remove the calcine would have small environmental impacts. The long-term impacts of the No Action and Continued Current Operations alternatives (*i.e.*, the uncertainty of leaving the SBW and calcine in storage), however, are uncertain and could be high. Implementing any of the action alternatives through the technologies or options analyzed in the Final EIS and a related SA (DOE/EIS-0287-SA-01) would eliminate the element of uncertainty and provide the most certain long-term protection of the environment.

DOE's decision to use the steam reforming technology for the treatment of SBW is based on DOE's consideration of environmental impacts, programmatic needs, safety and health risks, technical viability, ability to meet regulatory requirements and agreement milestones, public comments, and cost. DOE believes steam reforming provides the best value to the Government and meets its need for treatment flexibility, acceptable cost, and probability of success.

DOE's decision to defer a final decision on calcine is based on the need to continue detailed evaluation of repository performance criteria, regulatory requirements, cost, schedule, and programmatic risk.

DOE's decision to implement performance-based closure methods for disposition of existing facilities directly related to the HLW Program at INTEC and plan to clean close newly constructed facilities, such as the steam reforming facility for SBW treatment, was based on the analysis of the potential environmental impacts identified in the Final EIS as well as to meet regulatory requirements, such as RCRA, and because each method of closure is determined on a case-by-case basis.

DOE's decision to defer a final decision for closure of the Tank Farm was based on DOE's intent to coordinate this decision with the Secretary's determination, in consultation with the NRC, under Section 3116 of the NDAA that will allow DOE to decide the appropriate performance-based closure method.

No impact resulting from normal operations under any of the alternatives or options analyzed would require specifically designed mitigation measures. DOE will, however, adopt all practicable means to avoid or minimize environmental harm when implementing the actions described in this ROD. Those measures include employing engineering design features to address flooding, emission controls to reduce or eliminate releases of pollutants and meet regulatory requirements, maintaining a rigorous health and safety program to protect workers from radiological and chemical contaminants, and continuing efforts to reduce the generation of wastes.

These decisions are also consistent with the objectives of the DOE *Environmental Management Performance Management Plan for Accelerating Cleanup at INEEL*.

Issued in Washington, DC, this 13th day of December 2005.

James A. Rispoli,

Assistant Secretary for Environmental Management.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-RCRA-2005-0009; FRL-8009-7]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Used Oil Management Standards Recordkeeping and Reporting Requirements (Renewal), EPA ICR Number 1286.07, OMB Control Number 2050-0124

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on December 31, 2005. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before January 18, 2006.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-RCRA-2005-0009, to (1) EPA online using <http://www.regulations.gov> (our preferred method), by e-mail to RCRA-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, RCRA Docket, Mail Code 5305T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Michael Svizzero, Office of Solid Waste, Mail Code 5303W, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 703-308-0046; fax number: 703-308-8617; e-mail address: svizzero.michael@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On July 21, 2005 (70 FR 42060), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-RCRA-2005-0009, which is available for public viewing at the RCRA Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the RCRA Docket is (202) 566-0270. An electronic version of the public docket is available at <http://www.regulations.gov>. Use <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in <http://www.regulations.gov>. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in <http://www.regulations.gov>. For further information about the electronic docket go to <http://www.regulations.gov>.

Title: Used Oil Management Standards Recordkeeping and Reporting Requirements (Renewal).

Abstract: The Used Oil Management Standards, which include information collection requests, were developed in accordance with section 3014 of the Resource Conservation and Recovery Act (RCRA), as amended by the Hazardous and Solid Waste Amendments of 1984 (HSWA), which directs EPA to "promulgate regulations * * * as may be necessary to protect public health and the environment from the hazards associated with recycled

oil" and, at the same time, to not discourage used oil recycling. In 1985 and 1992, EPA established mandatory regulations that govern the management of used oil (see 40 CFR part 279). To document and ensure proper handling of used oil, these regulations establish notification, testing, tracking and recordkeeping requirements for used oil transporters, processors, re-refiners, marketers, and burners. They also set standards for the prevention and cleanup of releases to the environment during storage and transit, and for the safe closure of storage units and processing and re-refining facilities to mitigate future releases and damages. EPA believes these requirements minimize potential hazards to human health and the environment from the potential mismanagement of used oil by used oil handlers, while providing for the safe recycling of used oil. Information from these information collection requirements is used to ensure compliance with the Used Oil Management Standards.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range from 6 minutes to 23 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are Business or other for profit.

Estimated Number of Respondents: 1,640.

Frequency of Response: Biennially.

Estimated Total Annual Hour Burden: 460,286.

Estimated Total Annual Cost: \$22,478,000, which includes \$0 annualized startup/capital costs, \$10,011,000 annual O&M costs and \$12,467,000 annual labor costs.

There is no change in the burden estimates for this ICR.

Dated: December 12, 2005.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8010-3]

Notification of a Partially Closed Consultation of the Science Advisory Board's Homeland Security Advisory Committee (HSAC)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) announces a partially closed consultation of the HSAC.

DATES: The consultation will take place on January 30-31, 2006.

ADDRESSES: This consultation will take place at the EPA's SAB Conference Center located at the Woodies Building, 1025 F Street, NW., Room 3705, Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT:

Members of the public who wish to obtain further information regarding this announcement may contact Ms. Vivian Turner, Designated Federal Officer, by telephone: (202) 343-9697 or by e-mail at: turner.vivian@epa.gov. The SAB Mailing address is: U.S. EPA Science Advisory Board (1400F), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC, 20460. General information about the SAB, as well as any updates concerning the consultation announced in this notice, may be found in the SAB Web site at: <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: The EPA's Office of Water (OW) and Office of Research and Development (ORD) have requested a consultation with the SAB's Homeland Security Advisory Committee (HSAC) to obtain the individual advice of the HSAC members on the development of EPA's WaterSentinel (WS) program and Standard Analytical Methods (SAM). The WS program is being developed by the EPA in partnership with drinking water utilities and other key stakeholders in response to Homeland Security Presidential
