The respondents are the medical sources of the applicants for SSI disability payments.

Type of Request: Revision of an OMB-approved information collection.

SSA collects

the information to determine eligibility for U.S. Social Security benefits for those months a beneficiary or claimant is outside the U.S., and to determine if tax withholding applies. In addition, SSA uses the information to terminate Supplemental Medical Insurance coverage for recipients who request it, because they are or will be out of the

U.S. The respondents are individuals entitled to Social Security benefits who are, will be, or have been residing outside the U.S. for three months or longer.

3. *Credit Card Payment Form—0960–0648.* SSA uses form SSA-1414 to process: (1) Credit card payments from former employees and vendors with outstanding debts to the agency; (2) advance payments for reimbursable

agreements; and (3) credit card payments for all Freedom of Information Act (FOIA) requests requiring payment. The respondents are former employees and vendors who have outstanding debts to the agency, entities who have

reimbursable agreements with SSA, and individuals who request information through FOIA.

Type of Request: Revision of an OMB-approved information collection.

SSA-1414	6,000	1	2	200

4. *Benefit Offset National Demonstration—0960–0785.* In an effort to produce strong evidence about the effectiveness of potential solutions that would improve the historically very low rate of return to work among SSDI beneficiaries, SSA is currently conducting the Benefit Offset National Demonstration (BOND) project. The demonstration project will evaluate the result of policy changes and services on the Social Security Disability Insurance (SSDI) program.

Under current law, Social Security beneficiaries lose their SSDI benefit if they have earnings and/or work activity above the threshold of substantial gainful activity (SGA) after completing the trial work period and two-month grace period. The benefit-offset component of this demonstration reduces benefits by \$1 for each \$2 in

earnings above the BOND threshold, resulting in a gradual reduction in benefits as earnings increase.

BOND tests a benefit offset alone and in conjunction with enhanced work incentives counseling. The central research questions include:

- What is the effect of the benefit offset alone on employment and other outcomes?
- What is the effect of the benefit offset in combination with enhanced work incentives counseling on employment and other outcomes?

The public survey data collections for BOND have four components—an impact study, a cost-benefit analysis, a participation analysis, and a process study. The data collections are a primary source for data to measure the effects of a more generous benefit offset and the provision of enhanced work incentives counseling on SSDI

beneficiaries' work efforts and earnings. Ultimately, these data will benefit researchers, policy analysts, policy makers, and the United States Congress in a wide range of program areas.

The effects of BOND on the well-being of SSDI beneficiaries could manifest themselves in many dimensions and could be relevant to an array of other public programs. This project offers the opportunity to obtain reliable measures of these effects based upon a nationally representative sample. The long-term indirect benefits of this research are likely to be substantial. Respondents are SSDI beneficiaries and concurrent SSDI and SSI recipients who we randomly assign to the study (Stage 1), and SSDI beneficiaries who agree to participate in the study (Stage 2).

Type of Request: Revision of an OMB-approved information collection.

Claimant's Work Background—20 CFR 404.1565(b) and 20 CFR 416.965(b)—0960–0300. Sections 205(a) and 1631(e) of the Social Security Act provide the Commissioner of Social Security with the authority to establish procedures for determining if a claimant is entitled to disability benefits. The

administrative law judge (ALJ) may ask individuals to provide background information on Form HA–4633 about work they performed in the past 15 years. The ALJ uses the information to assess an individual's disability based on an updated summary of the individual's relevant work history. The

HA–4633 becomes part of the documentary evidence of record. The respondents are claimants for disability benefits under title II or title XVI who requested a hearing before an ALJ.
