

the basis for the customers' TAA certification.

In this case, however, the subject firm does not act as an upstream supplier, because industrial sewing machines do not form a component part of apparel and other textile products. Thus the subject firm workers are not eligible under secondary impact.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC, day 20th of November, 2006.
