**SUPPLEMENTARY INFORMATION:** Under part 235 of title 49 Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by letter dated February 26, 2025, FGA petitioned FRA seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2025-0034.<sup>1</sup>

Specifically, FGA requests to discontinue the centralized traffic control (CTC) system on the Tallahassee Subdivision, from milepost (MP) 693.3 to MP 802.0. FGA intends to remove the “outdated” CTC system and install “switch point approach signal indicators, DTMF Systems, and self-restoring switches at five siding locations between Baldwin and Tallahassee, as well as the switch accessing the Bainbridge Line at Tallahassee.” Train operation would then use track warrant control, which is used on FGA’s other two subdivisions.

In support of the request, FGA states that it is difficult to find parts for the current CTC system, as the relays required are no longer produced, and the system frequently fails. Further, the CTC system sometimes “hinders operations by slowing down the switching operations when blocking or organizing interchange traffic.” FGA adds that the new DTMF system will provide broken rail protection and there is no potential for head-on or rear-end collisions at either interlocking in the subject area.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov).

Interested parties are invited to participate in these proceedings by

<sup>1</sup> FRA erroneously cited Docket Number FRA-2025-0024 in a previous public notice announcing FGA’s request. The correct Docket Number is FRA-2025-0034.

submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by June 9, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.
