o. Scoping Process.

The Commission staff intends to prepare an Environmental Assessment (EA) or Environmental Impact Statement (EIS) for the Walden Hydroelectric Project in accordance with the National Environmental Policy Act (NEPA). The NEPA document will consider impacts and reasonable alternatives to the proposed action.

¹ In an October 14, 2020 filing, Walden Hydro stated that although the total rated capacity of the project as stated in the license application is 2,110 kW (980 kW, 630 kW, and 500 kW), the maximum achievable output from each turbine/generator unit is lower than the stated capacities.

Commission staff does not propose to conduct any on-site scoping meetings at this time. Instead, we are soliciting comments, recommendations, and information, on the Scoping Document (SD) issued on December 11, 2020.

Copies of the SD outlining the subject areas to be addressed in the NEPA document were distributed to the parties on the Commission's mailing list and the applicant's distribution list. Copies of the SD may be viewed on the web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document.
