

increase available liquidity to the benefit all members and investors that trade on the Exchange. The Exchange further believes that adopting a fee cap for strategy trades is not unfairly discriminatory because all Market Maker, Non-ISE Market Maker, Firm Proprietary/Broker-Dealer, and Professional Customer that execute strategy trades on the Exchange will have an opportunity to benefit from this cap. The Exchange does not believe that it is unfairly discriminatory not to apply a similar cap for Priority Customer orders as Priority Customers do not generally enter strategy orders, which involve large volume trades, and already receive free or heavily discounted execution fees and therefore would not benefit from a strategy trade fee cap.

The Exchange also believes that it is reasonable equitable and not unfairly discriminatory to aggregate affiliates for purposes of the monthly fee cap for strategy orders as the language permitting aggregation of volume amongst corporate affiliates is intended to avoid disparate treatment of firms that have divided their various business activities between separate corporate entities as compared to firms that operate those business activities within a single corporate entity. In this regard, the Exchange notes that the proposed definition of "affiliate" is consistent with the definition used in other parts of the Schedule of Fees.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,⁹ the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed strategy cap is pro-competitive as it is designed to compete with strategy caps already in place on other markets, and will lower the fees charged to members that execute strategy trades on the Exchange. The Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and rebates to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed fee changes reflect this competitive environment.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act⁹ and subparagraph (f)(2) of Rule 19b-4 thereunder,¹⁰ because it establishes a due, fee, or other charge imposed by ISE.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
