[OMB Control No. 9000-0006]

**Proposed Collection; Comment
Request Entitled Subcontracting
Plans/Subcontracting Report for
Individual Contracts (Standard Form
294)**

AGENCIES: Department of Defense (DOD),
General Services Administration (GSA),
and National Aeronautics and Space
Administration (NASA).

ACTION: Correction.

SUMMARY: This notice corrects the information collection requirement regarding an extension to an existing OMB Clearance Number 9000-0006 previously published in the **Federal Register** at 66 FR 7468, January 23, 2001.

CORRECTION: In the document appearing in the January 23, 2001, issue, add the following before the **ADDRESSES** paragraph:

“**DATES:** Comments may be submitted on or before April 6, 2001.”

FOR FURTHER INFORMATION CONTACT: Rhonda Cundiff, Office of Acquisition Policy, GSA (202) 501-0044.

Dated: January 30, 2001.

Al Matera,

Acting Director, Federal Acquisition Policy Division.

Department of the Army

Army Science Board; Notice of Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee Meeting:

Name of Committee: Army Science Board (ASB).

Date of Meeting: 06-07 February 2001.

Time of Meeting: 0830-1630, 06 February 2001, 0830-1630, 07 February 2001.

Place: Aerojet Sacramento Facility, Highway 50 & Aerojet Road, Rancho Cordova, CA 95760.

Agenda: The Army Science Board's (ASB) study on Venture Capital will have their kickoff meeting to be briefed by Study Sponsors and to break into individual panels. There will be a briefing by RAND, discussion on the CIA Initiative, and Army Procurement, to name a few. For further information, please contact LTC John Anzalone, Operations Research Analyst, (703) 604-7436.

Wayne Joyner,

Program Support Specialist, Army Science Board.

Defense Logistics Agency

Notice of Intent To Prepare a Draft Programmatic Environmental Impact Statement for the Long Term Management of the National Defense Stockpile Inventory of Excess Mercury

AGENCY: Defense National Stockpile Center (DNSC).

ACTION: Notice of intent to prepare a draft programmatic environmental impact statement.

SUMMARY: This notice is provided in accordance with the Council on Environmental Quality (CEQ) regulations (40 CFR parts 1500-1508) and the DLAR 1000.22, Environmental Considerations in DLA Actions in the United States, implementing the National Environmental Policy Act (NEPA). DNSC, part of DLA within DoD, will prepare an environmental impact statement (EIS) that will evaluate alternatives for managing the DNSC inventory of excess mercury. DNSC is a mandatory source of supply for raw materials for all Federal Agencies as required by the Federal Acquisition Regulation, Part 8.002 Use of Other Government supply sources. The mercury in the Stockpile has been declared excess to national defense needs and DNSC must decide on long term management of the excess mercury. For the purposes of this EIS, the term “long term management” shall include any potential action to sell or dispose of such material. DNSC is responsible for the safe, secure, and environmentally sound stewardship for all commodities, such as lead, zinc, aluminum oxide, tin and bauxite, in the DNSC inventory, including the inventory of excess mercury. The mercury inventory is currently stored in enclosed warehouses at four different locations: New Haven, IN; Oak Ridge, TN; Somerville, NJ; and Warren, OH. DNSC will use the EIS process to inform the public of how the inventory of excess mercury is currently managed and how it became part of the DNSC. DNSC will also ensure that the public has an opportunity to comment on what could be done regarding its long term management. Public comments are invited and encouraged concerning both the scope of environmental and socioeconomic issues and the long term management alternatives that should be addressed in the EIS. DOE is a cooperating agency for the preparation of this EIS because some of DoD's excess mercury is currently stored at the Department of Energy's (DOE) Y-12

National Security Complex in Oak Ridge, Tennessee.

DATES: Comments on the scope of the issues and alternatives to be addressed in the EIS must be postmarked or e-mailed no later than 30 June 2001.

ADDRESSES: Written comments should be sent to: Project Manager, Mercury Management EIS; DNSC-E; Defense Logistics Agency; Defense National Stockpile Center, 8725 John J. Kingman Road, Suite 4616, Fort Belvoir, Va. 22060-6223. Comments may also be posted to the Mercury Management EIS website at “www.mercuryeis.com” or faxed to (888) 306-8818.

FOR FURTHER INFORMATION CONTACT: Call and leave a voice mail (1-888-306-6682) or fax message (1-888-306-8818) at the Mercury Management EIS toll free number; e-mail your request to “John_Reinders@hq.dla.mil”; or access the Mercury Management EIS website at “www.mercuryeis.com”. For information concerning DOE's NEPA process, contact Ms. Carol Borgstrom, Director, Office of NEPA Policy and Compliance (EH-42), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington DC, 20585. Telephone: 202-586-4610, or leave a message at 1-800-472-2756, or access tis.eh.doe.gov/NEPA.

SUPPLEMENTARY INFORMATION:

Background: the Defense National Stockpile program was established by Congress in the Strategic and Critical Materials Stock Piling Act of 1939, as amended, to minimize the United States' dependence on foreign sources of essential materials in times of national emergency. Between 1949 and 1988, the General Services Administration (GSA) and the Federal Emergency Management Agency (FEMA) were responsible for the program. In 1988, the responsibility for the program was delegated to the Secretary of Defense, who assigned the program to DLA. DNSC was established within DLA to manage the program, and is headquartered at Fort Belvoir, VA and operates storage depots nationwide. The stockpile currently includes approximately 68 commodities, including lead, tin, zinc, aluminum oxide, cobalt, bauxite, and mercury.

DNSC is responsible for all activities necessary to provide safe, secure, and environmentally sound stewardship of all commodities in the inventory. Over the past several years as new technologies have evolved and the global economics emerged, Congress had declared most of the DNSC materials to be in excess of national defense needs and has authorized their disposition, generally by sale. Mercury is one of these commodities determined
