SUPPLEMENTARY INFORMATION: EPA is proposing to establish the 2026 and 2027 applicable volumes and corresponding percentage standards for cellulosic biofuel, biomass-based diesel, advanced biofuel, and total renewable fuel. EPA is also proposing to partially waive the 2025 cellulosic biofuel volume requirement and revise the associated percentage standard due to a shortfall in cellulosic biofuel production. Finally, EPA is proposing several regulatory changes to the RFS program, including reducing the number of Renewable Identification Numbers (RINs) generated for imported renewable fuel and renewable fuel produced from foreign feedstocks and removing renewable electricity as a qualifying renewable fuel under the RFS program (eRINs). The “RFS Program: Standards for 2026 and 2027, Partial Waiver of 2025 Cellulosic Biofuel Volume Requirement, and Other Changes” proposal was announced on June 13, 2025, and will be published separately in the **Federal Register**. The pre-publication version is available at <https://www.epa.gov/renewable-fuel-standard-program/proposed-renewable-fuel-standards-2026-and-2027>.
