

**DEPARTMENT OF HOUSING AND  
URBAN DEVELOPMENT****[Docket No. FR-5186-N-18]****Federal Property Suitable as Facilities  
to Assist the Homeless**

**AGENCY:** Office of the Assistant Secretary for Community Planning and Development, HUD.

**ACTION:** Notice.

**SUMMARY:** This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

**EFFECTIVE DATE:** May 2, 2008.

**FOR FURTHER INFORMATION CONTACT:** Kathy Ezzell, Department of Housing and Urban Development, 451 Seventh Street, SW., Room 7262, Washington, DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 800-927-7588.

**SUPPLEMENTARY INFORMATION:** In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: April 24, 2008.

**Mark R. Johnston,**

*Deputy Assistant Secretary for Special Needs.*  
[FR Doc. E8-9388 Filed 5-1-08; 8:45 am]

**BILLING CODE 4210-67-P**

**DEPARTMENT OF THE INTERIOR****Fish and Wildlife Service****Cullinan Ranch Unit Restoration  
Project, San Pablo Bay National  
Wildlife Refuge, Solano County, CA**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability; request for comments: Draft environmental impact statement and environmental impact report.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service) and the California Department of Fish and Game

(CDFG) are proposing a restoration plan for 1,500 acres (ac) of former hayfield farm land in the San Pablo Bay. This restoration project would combine tidal salt marsh habitat for endangered species, waterfowl, waterbirds, and fish, as well as public access features to increase accessibility to wildlife resource values in the San Pablo Bay, while minimizing project-induced flood impacts to Highway 37. In accordance with the National Environmental Policy Act of 1969 (NEPA), this notice advises other agencies, Tribes, and the public that the draft environmental impact statement and environmental impact report (DEIS/EIR) on the proposed tidal marsh restoration project at Cullinan Ranch, a unit of the San Pablo Bay National Wildlife Refuge (Refuge), Solano and Napa Counties, California, is now available for review. We invite and encourage interested persons to review the document and submit written comments to identify issues related to the alternatives we address in the DEIS/EIR.

**DATES:** We must receive written comments at the address below on or before June 17, 2008. You may submit comments by any one of the methods we describe under **ADDRESSES**. We will hold a public meeting in May 2008, to solicit comments. See **SUPPLEMENTARY INFORMATION** for more information.

**ADDRESSES:** The Draft EIS/EIR is available for review at:

- Refuge Headquarters Office, San Pablo Bay National Wildlife Refuge, 2100 Highway 37, Petaluma, CA 94954; (707) 769-4200.
- San Francisco Bay National Wildlife Refuge Complex, 9500 Thornton Avenue, Newark, CA 94560; (510) 792-0222.
- John F. Kennedy Public Library, 505 Santa Clara, Vallejo, CA 94590.
- <http://www.fws.gov/sfbayrefuges/San%20Pablo/SanPablo.htm>.

Written comments and requests for information may be mailed to:

Christy Smith, Refuge Manager, San Pablo Bay National Wildlife Refuge, 7715 Lakeville Highway, Petaluma, California 94954. Written comments may also be sent by facsimile to (707) 769-8106.

**FOR FURTHER INFORMATION CONTACT:** Christy Smith, Refuge Manager, San Pablo Bay NWR, (707) 769-4200 (phone); [christy\\_smith@fws.gov](mailto:christy_smith@fws.gov) (e-mail), OR Louis Terrazas, Wildlife Refuge Specialist, San Pablo Bay NWR, (707) 769-4200 (phone); [louis\\_terrazas@fws.gov](mailto:louis_terrazas@fws.gov) (e-mail).

**SUPPLEMENTARY INFORMATION:**

**Location**

Located within the existing Refuge boundary, the Cullinan Ranch Unit is bordered by the South Slough and Dutchman Slough to the north and State Route 37 to the south. California Department of Fish and Game Pond 1 borders Cullinan Ranch to the west. Guadalcanal Village Wetlands (Guadalcanal), which is owned by the State of California and is currently being restored to tidal marsh, borders Cullinan Ranch to the east.

**Background**

The Cullinan Ranch restoration project would restore approximately 1,500 acres of diked baylands to historic tidal conditions by reintroducing tidal flow into the project area. This area, Cullinan Ranch, is located in an area of the Napa River Delta that was historically defined by a network of meandering sloughs and extensive estuarine tidal marshes. Reintroduction of tidal flow will restore vital salt marsh habitat for endangered species, including the salt marsh harvest mouse (*Reithrodontomys raviventris*), and the California clapper rail (*Rallus longirostris obsoletus*), as well as provide foraging and roosting habitat for fish, migratory waterfowl and waterbirds.

The proposed restoration is based on the concept that reintroduction of tidal waters will naturally develop salt-water marsh habitat conditions. The existing perimeter levee currently prevents tidal flows into the area and, as a result, the land has subsided several feet in elevation and becomes inundated with fresh water during the rainy season. Once restored, twice-daily tidal flows would carry and deposit sediment, eventually establishing marsh plain elevations sufficient to support tidal marsh vegetation. As tidal waters enter and exit the site, tidal channels would develop or re-establish from previous channels. Continued tidal action would maintain an active exchange of water, sediment and nutrients between the marsh habitat and the Bay, further enhancing the value of the habitat for plants and wildlife.

In keeping with one of the purposes of the Refuge "to conserve fish, wildlife, or plants which are listed as endangered species or threatened species," the Cullinan Ranch restoration project would restore historic salt marsh habitat for the benefit of threatened and endangered species as well as many other estuarine-dependent species.

We announced a notice of intent to prepare an Environmental Assessment on July 15, 2002, and sent notices to
