Submission for OMB Review; Value Engineering Requirements

AGENCY: Office of Federal Procurement Policy (OFPP), Office of Management and Budget (OMB); Department of Defense (DOD); General Services Administration (GSA); and National Aeronautics and Space Administration (NASA).

ACTION: Notice.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division has submitted to OMB a request to review and approve an extension of a previously approved information collection requirement regarding value engineering requirements.

DATES: Submit comments on or before June 26, 2025.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000–0027, Value Engineering Requirements.

B. Need and Uses

This clearance covers the information that contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

- FAR 52.248–1, *Value Engineering*; 52.248–2, *Value Engineering-Architect-Engineer*; and 52.248–3, *Value Engineering-Construction*. These clauses require contractors submitting Value Engineering Change Proposals (VECP's) to the Government to provide such details as: a description of the differences between the existing contract requirement and the proposed requirement, and the comparative advantages and disadvantages of each; a list and analysis of contract requirements that must be changed if the VECP is accepted; a detailed cost estimate showing anticipated reductions associated with the VECP; a statement of the time a modification accepting the VECP must be issued to achieve maximum cost reduction, and the effect on contract completion time; and identification of any previous submissions of the VECP; the agencies and contract numbers involved and previous Government actions, if known.

The Government will use the collected information to evaluate the VECP and, if accepted, to arrange for an equitable sharing plan.

C. Annual Burden

Respondents: 90.

Total Annual Responses: 180.

Total Burden Hours: 2,700.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 90 FR 11975, on March 13, 2025. A comment was received; however, it did not change the estimate of the burden.

Comment: This collection should be modified to remove the automated collection techniques that are not currently approved within the contract properly. The incentive language should be removed from the existing agreement and contract regulations need to be followed by all parties involved in the agreement.

Response: The respondents' input is appreciated. Any changes to the collection will require rulemaking. The clauses at FAR 52.248–1, 52.248–2, and 52.248–3 require contractors submitting Value Engineering Change Proposals (VECP's) to provide enough details for the Government to evaluate the VECP and, if accepted, arrange for an equitable sharing plan.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division by calling 202–501–4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 9000–0027, Value Engineering Requirements.

Submission for OMB Review; Service Contracting

AGENCY: Office of Federal Procurement Policy (OFPP), Office of Management and Budget (OMB); Department of Defense (DOD); General Services Administration (GSA); and National Aeronautics and Space Administration (NASA).

ACTION: Notice.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division has submitted to OMB a request to review and approve an extension of a previously approved information collection requirement regarding service contracting.

DATES: Submit comments on or before June 26, 2025.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s):

9000–0152, Service Contracting.

B. Need and Uses

This clearance covers the information that offerors must submit to comply with the FAR requirements at FAR 52.237–10, Identification of Uncompensated Overtime. This provision requires offerors, when professional or technical services are acquired on the basis of the number of hours to be provided, to identify uncompensated overtime hours in excess of 40 hours per week, whether at the prime or subcontract level. This includes uncompensated overtime hours that are in indirect cost pools for personnel whose regular hours are normally charged direct.

The contracting officer will use the collected information to perform an adequate cost realism analysis of the offerors’ proposed labor rates. Proposals which include unrealistically low labor rates, or which do not otherwise demonstrate cost realism, will be considered by the contracting officer in a risk assessment and evaluated appropriately. The primary purpose for obtaining the information and using it during the source selection process is to discourage the use of uncompensated overtime.

C. Annual Burden

Respondents: 20,076.

Total Annual Responses: 20,076.

Total Burden Hours: 10,038.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 90 FR 11974, on March 13, 2025. A comment was

received; however, it did not change the estimate of the burden.

Comment: This collection is in need of changes to improve efforts to avoid duplication of personnel service hours charged and possible overcharge of hours worked that are not part of the original agreement. This would be a significant cost savings measure for the Government.

Response: The respondents’ input is appreciated. Any changes to the collection will require rulemaking. The solicitation provision at FAR 52.237–10 requires offerors to identify uncompensated overtime hours in excess of 40 hours per week in their offers. The contracting officer will use the collected information to perform an adequate cost realism analysis of the offerors’ proposed labor rates.

**Submission for Office of Management
and Budget Review; Electronic
Document Exchange (Office of
Management and Budget #: 0970–0435)**

AGENCY: Office of Child Support Enforcement, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office of Child Support Enforcement (OCSE), Administration for Children and Families (ACF), is requesting the Office of Management and Budget (OMB) to approve the Electronic Document Exchange (EDE), with minor revisions, for an additional three years. State child support agencies (CSAs) use the EDE to improve case processing. The current OMB approval expires on June 30, 2025.

DATES: *Comments due* June 26, 2025. OMB must decide about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. You can also obtain copies of the proposed collection of information by emailing infocollection@acf.hhs.gov. Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The EDE provides a centralized, secure system for authorized users in state CSAs to electronically exchange child support and spousal support case information with other state child support agencies. EDE benefits state CSAs by reducing delays, costs, and barriers associated with interstate case processing. It increases state collections, improves document security, standardizes data sharing, increases state participation, and improves case processing, resulting in better overall child and spousal support outcomes. OCSE made minor updates to the Portal screens to enhance functionality.

Respondents: State CSAs
