SUPPLEMENTARY INFORMATION: A proposed rule published in the **Federal Register** on October 3, 2022 (87 FR 60010), would revise the regulations under the Packers and Stockyards Act (7 U.S.C. 181 *et seq.*) at 9 CFR part 201. Under the proposal, packers, swine contractors and live poultry dealers (regulated entities) would be prohibited from engaging in certain activities that prejudice, disadvantage, or inhibit market access of a covered producer and may not take adverse action against covered producers based upon the producer’s status as a market vulnerable individual or as a cooperative. Regulated entities also would be prohibited from retaliating against covered producers and would be prohibited from engaging in certain deceptive practices with respect to their livestock, meat, or poultry operations.

The proposed rule announced a 60-day comment period, ending December 2, 2022. During the initial comment period, AMS received requests asking for additional time to submit comments, citing the proposed rule’s complexity and its connection with other Packers and Stockyards actions under consideration at this time. AMS is now extending the comment period for this proposed rule. Comments must be submitted on or before January 17, 2023.

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for certain The Boeing Company Model 737–600, –700, –700C, –800, –900, and –900ER series airplanes, and certain Model 737–8 and –9 airplanes. This proposed AD was prompted by reports of uncommanded escape slide deployments in the passenger compartment, caused by too much tension in the inflation cable and the movement of the escape slide assembly in the escape slide compartment. This proposed AD would require inspecting all escape slide assemblies to identify affected parts, and applicable on-condition actions. The FAA is proposing this AD to address the unsafe condition on these products.

DATES: The FAA must receive comments on this proposed AD by January 17, 2023.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:
