

complexes and geographic locations where Navy training occurs. The primary tools available for monitoring include visual observations, acoustic monitoring, photo identification and tagging, and oceanographic and environmental data collection.

A list of proposed mitigation measures and standard operating procedures are described in the application for the proposed training operations. These mitigation measures include personnel training for watchstanders and lookouts in marine mammal monitoring, operating procedures for collision avoidance, specific measures applicable to the mid-Atlantic during North Atlantic right whale migration, and a series of measures for specific at-sea training events including surface-to-surface gunnery, etc. A detailed description of the monitoring and mitigation measures are provided in the applications.

#### Information Solicited

Interested persons may submit information, suggestions, and comments concerning the Navy's request (see **ADDRESSES**). All information, suggestions, and comments related to the Navy's Cherry Point Range Complex request and NMFS' potential development and implementation of regulations governing the incidental taking of marine mammals by the Navy's training activities will be considered by NMFS in developing, if appropriate, the most effective regulations governing the issuance of letters of authorization.
