SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (in

terms of time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining said information (29 U.S.C. 657).

OSHA conducts peer reviews of a draft product for quality by specialists in the field who were not involved in producing the draft. The selection of participants in a peer review is based on expertise, considering their independence and any actual or potential conflicts of interest. The Office of Management and Budget published the Final Information Quality Bulletin for Peer Review on December 15, 2004. The Bulletin states ". . . the agency must address reviewers' potential conflicts of interest (including those stemming from ties to regulated businesses and other stakeholders) and independence from the agency." The Bulletin requires agencies to adopt or adapt the committee selection policies employed by the National Academy of Sciences (NAS) when selecting peer reviewers who are not government employees. To fulfill this requirement, OSHA has developed a Conflict of Interest (COI) and Disclosure Form, based on NAS' Conflict of Interest Disclosure form. This form will be used to determine whether a conflict exists for a potential peer review panel member.

The following sections describe who uses the information collected under each requirement, as well as how they use it.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements,

including the validity of the methodology and assumptions used;

- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Conflict of Interest (COI) and Disclosure Form. The agency is requesting to maintain the burden hours estimate of 27 hours.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved data collection.

Title: Conflict of Interest (COI) and Disclosure Form.

OMB Control Number: 1218-0255.

Affected Public: Individuals and Households.

Number of Respondents: 36.

Number of Responses: 36.

Frequency of Responses: On occasion.

Average Time per Response: OSHA estimates it will take thirty minutes (30/60 hour) to complete the short version of the COI form, and one (1) hour to complete the long version of the COI form.

Estimated Total Burden Hours: 27.

Estimated Cost (Operation and Maintenance): \$0.
