

Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the [regulations.gov](http://www.regulations.gov) site is not available to the public for any reason, the Department will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. Please note that comments submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Manager of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W203, Washington, DC 20202–8240.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Marcos Cerdeira, (202) 453–5819.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Rural, Insular, and Native Achievement Programs Progress Update Protocol.

OMB Control Number: 1810–0762.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 58.

Total Estimated Number of Annual Burden Hours: 58.

Abstract: This submission is a request for a revised information collection. The Rural, Insular, and Native Achievement Programs (RINAP) administers section 1121 of title I, part A of the ESEA; CARES Act Outlying Areas; title III of CRRSA Outlying Areas, sections 2005 and 11006(2–3) of the ARP; title V, part B of the ESEA (Rural Education Achievement Program), title VI, part B of the ESEA (Native Hawaiian Education); title VI, part C of the ESEA (Alaska Native Education); and the Supporting Americas School Infrastructure program. Periodic progress updates, phone, virtual, or in-person conversations during a fiscal year with authorized representatives and project directors help ensure grantees are making progress toward meeting program goals and objectives. The information shared with RINAP helps inform the selection and delivery of technical assistance to grantees and aligns structures, processes, and routines so RINAP can monitor the connection between grant administration and intended outcomes. Progress updates also allow RINAP to proactively engage with grantees to identify potential compliance issues ahead of more comprehensive monitoring, decreasing the need for enforcement action and minimizing burden for grantees.

Dated: June 18, 2024.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

DEPARTMENT OF ENERGY

Notice of Intent and Request for Information Regarding Computational Tools To Support Class VI Permitting

AGENCY: Office of Fossil Energy and Carbon Management, Department of Energy.

ACTION: Notice of intent (NOI); request for information (RFI).

SUMMARY: The Office of Fossil Energy and Carbon Management (FECM), Department of Energy (DOE or Department), on behalf of the National Energy Technology Laboratory, is

issuing this NOI to notify interested parties of its intent to develop and release a revised and updated version of the report “Rules and Tools Crosswalk: A Compendium of Computational Tools to Support Geologic Carbon Storage Environmentally Protective UIC Class VI Permitting.” The Department also seeks input from all stakeholders through this RFI regarding additional relevant computational tools (or updated information on already documented tools) that should be considered as the authors prepare the new release of the aforementioned report.

DATES: Written comments and information are requested by July 24, 2024.

ADDRESSES: Interested parties may submit comments electronically to nrap@netl.doe.gov and include “Computational Tools to Support Class VI Permitting” in the subject line of the email. Responses must be provided as attachments to an email. Only electronic responses will be accepted. The report is available at: <https://www.netl.doe.gov/energy-analysis/details?id=af3aa712-dcea-4abd-b2a4-c52f2550ac74>.

FOR FURTHER INFORMATION CONTACT: Questions may be addressed to Brian Strazisar, brian.strazisar@netl.doe.gov or (412) 386–9218.

SUPPLEMENTARY INFORMATION:

I. Background

In 2022, the U.S. Department of Energy's National Energy Technology Laboratory (NETL), in collaboration with representatives from the U.S. Environmental Protection Agency (U.S. EPA), Lawrence Berkeley National Laboratory, Lawrence Livermore National Laboratory, Los Alamos National Laboratory, Pacific Northwest National Laboratory, and four Regional Initiatives to Accelerate Carbon Capture, Utilization, and Storage (CCUS), released the report, “Rules and Tools Crosswalk: A Compendium of Computational Tools to Support Geologic Carbon Storage Environmentally Protective UIC Class VI Permitting,” available at <https://www.netl.doe.gov/energy-analysis/details?id=af3aa712-dcea-4abd-b2a4-c52f2550ac74>. This report was published on NETL's website and posted on the U.S. EPA's Underground Injection Control Program's website for Class VI (Geologic Sequestration) Permit Application and Permitting Tools, available at: <https://www.epa.gov/uic/class-vi-geologic-sequestration-permit-application-and-permitting-tools>. The report summarizes computational tools and methods that may be used to

address specific requirements of the Underground Injection Control (UIC) Class VI (Geologic Sequestration of Carbon Dioxide) permit application process and is intended to serve as a resource for stakeholders. The report highlights available computational tools that may have relevance to elements of the permit application, including siting, construction, operation, testing, monitoring, and closure of Class VI wells, as codified in the U.S. Code of Federal Regulations (40 CFR 146.81 *et seq.*). The compilation of computational tools is intended to be an informational resource for practitioners seeking to understand or develop a Class VI permit application and is not intended to be exhaustive. Reference to any computational tool should not be seen as an endorsement of that tool by the report coauthors or their organizations. Similarly, a lack of reference to any tool should not be seen as a repudiation of that tool by the coauthors or their organizations.

II. Notice of Intent

NETL intends to use feedback from this RFI, together with other gathered sources of information, to develop a revised and updated version of the report “Rules and Tools Crosswalk: A Compendium of Computational Tools to Support Geologic Carbon Storage Environmentally Protective UIC Class VI Permitting.” The revised report will be made publicly accessible as a DOE NETL web-based product and may also be made available by other co-authoring institutions.

III. Questions for Request for Information

NETL and the U.S. EPA are seeking information from stakeholders on additional relevant computational tools (or updated information on already documented tools) that should be considered as the authors prepare a new release of this report. NETL specifically welcomes responses to the questions listed below. Responses received within 30 days of this notice will be considered for inclusion in the next release of this report; additional input will be accepted on an ongoing basis and considered for inclusion in any subsequent versions of the report.

Specific Information Requested

Tool Name

1. What is the commercial or common name for the tool?

Developer/Owner

2. What entity developed the tool and/or is responsible for its distribution?

Tool Type

3. Please specify the type of tool that is being described (numerical reservoir simulator, stochastic model, etc.)

Description

4. Provide a high-level description of the tool (please also include any relevant publicly available URLs).

Tool Licensing and Access

5. How is the tool licensed?
6. Where can it be downloaded or purchased?

Model Input

7. What type of information is needed to run the model?

Model Output

8. What type of information does the model produce?

Risks Behavior Considered

9. What kinds of risks or behaviors does the model simulate? (e.g., leakage risk, environmental risk, induced seismicity, etc.)

Relevant Permitting Phase

10. During which phases of a Class VI permit would the tool be used? (e.g., site screening, site characterization, injection, post-injection)

Class VI Permit Element Addressed

11. What specific aspects of a Class VI permit does the tool address? (e.g., Area of Review, Post Injection Site Care, Monitoring Plan, etc.)

How the Tool Is Used

12. Please provide general comments on how the tool can be used in a Class VI permitting workflow.

Last Updated

13. When was the tool last updated?

Ongoing Development

14. Is the tool still under development?
15. Does it have an active user community?
16. Support for the tool still available?

Ease of Use

17. Does the tool have a graphical user interface?
18. Do users need computer programming skills to use the tool?
19. What other skills may be needed to run the tool?

Computational Speed

20. Is the model designed for computational efficiency?
21. How long do simulations typically take to run?

22. Are computational speeds limiting in any way?

Tool Verification

23. Has the tool been verified for accuracy?

24. If so, where can this documentation be found?

Related References

25. Please provide a list of websites, manuals, and publications where additional information about the tool and its application can be found.

IV. Response Guidelines

NOI/RFI responses shall include:

1. NOI/RFI title and reference number;
2. Name(s), phone number(s), and email address(es) for the principal point(s) of contact;
3. Institution or organization affiliation and postal address; and
4. Clear indication of the specific information you are providing.

Responses including confidential business information will be handled per guidance in Section V.

V. Confidential Business Information

Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email two well-marked copies: One copy of the document marked “confidential” including all the information believed to be confidential, and one copy of the document marked “non-confidential” with the information believed to be confidential deleted. Submit these documents via email. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Signing Authority

This document of the Department of Energy was signed on June 17, 2024, by Bradford Crabtree, Assistant Secretary, Office of Fossil Energy and Carbon Management, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on June 18, 2024.

[Docket No. ER24–2271–000]

Aspen Road Solar 1, LLC;
Supplemental Notice That Initial
Market-Based Rate Filing Includes
Request for Blanket Section 204
Authorization

This is a supplemental notice in the above-referenced proceeding of Aspen Road Solar 1, LLC’s application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant’s request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is July 5, 2024.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic

service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission’s Home Page (<http://www.ferc.gov>).
