SUPPLEMENTARY INFORMATION: The items of discussion in the committee's agenda are as follows:

The Groundfish Oversight Committee will continue development of Framework Adjustment 48 to the Northeast Multispecies Fishery Management Plan. The Committee will receive reports from the Groundfish Advisory Panel and the Recreational Advisory Panel, and will consider the recommendations of those panels. The Committee will discuss possible adjustments to sector management measures and issues related to setting Acceptable Biological Catches (ABCs),

Annual Catch Limits (ACLs), and Accountability Measures (AMs). The Committee will continue to develop options to improve sector monitoring, including both at-sea and dockside monitoring. They may discuss different funding mechanisms, appropriate coverage levels, full retention of allocated groundfish species, and ACE carry-over provisions. With respect to ABCs/ACLs/AMs, the Committee will consider additional sub-ACLs for the scallop fishery for stocks such as SNE/MAB windowpane flounder. Issues related to the scallop fishery that may be discussed include the allocations of yellowtail flounder to that fishery, and changing the time that access is allowed into the Georges Bank access areas. The Committee may also develop options for additional sub-ACLs for fisheries outside the Council's jurisdiction that catch these stocks. Examples of fisheries that may be affected include the fluke and scup fisheries that are managed by the Mid-Atlantic Fishery Management Council (MAFMC) and the Atlantic States Marine Fisheries Commission (ASMFC), and the squid fisheries that are managed by the MAFMC. The Committee may decide to apply accountability measures by gear for this stock, rather than by FMP. Committee members may also discuss additional reactive AMs for wolffish, SNE/MA winter flounder, and Atlantic halibut. The Committee may also discuss other issues that may be incorporated into the framework, such as issues related to Georges Bank yellowtail flounder management. The Committee will discuss recreational management measures for FY 2013 and beyond. Options identified by the Committee will be included in a future management action (Framework Adjustment 48) that will be considered by the Council in the fall of 2012. Other business may be discussed.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
