#### SUPPLEMENTARY INFORMATION:

*Title:* Importation of Live Swine, Pork  
and Pork Products, and Swine Semen  
from the European Union.

*OMB Control Number:* 0579–0218.

*Type of Request:* Revision to and  
extension of approval of an information  
collection.

*Abstract:* Under the Animal Health  
Protection Act (7 U.S.C. 8301 *et seq.*),  
the Animal and Plant Health Inspection  
Service (APHIS) of the United States  
Department of Agriculture is authorized,  
among other things, to prohibit or  
restrict the importation and interstate  
movement of animals and animal  
products to prevent the introduction  
into and dissemination within the  
United States of livestock diseases and  
pests. To carry out this mission, APHIS  
regulates the importation of animals and  
animal products into the United States.

The regulations in 9 CFR part 94,  
prohibit or restrict the importation of  
specified animals and animal products  
to prevent the introduction of diseases  
such as classical swine fever (CSF), foot-  
and-mouth disease, swine vesicular  
disease, and African swine fever.  
Among other things, part 94 lists the  
requirements for the importation of pork  
and pork products and live swine where  
these diseases exist. Section 94.31 lists  
the requirements for the importation of  
pork, pork products, and breeding swine  
from the European Union (“the APHIS  
defined European CSF region”). In  
addition, 9 CFR 98.38 lists the  
requirements for the importation of  
swine semen from the APHIS-defined  
European CSF region.

These regulations require information  
collection activities, such as a certificate  
for pork and pork products, breeding  
swine, and swine semen; application for  
import or in-transit permit; and  
declaration of importation. Since the  
last approval, we have decreased the  
estimates of burden to reflect the  
decrease in importation of pork and  
pork products.

We are asking the Office of  
Management and Budget (OMB) to

approve our use of these information  
collection activities, as described, for an  
additional 3 years.

The purpose of this notice is to solicit  
comments from the public (as well as  
affected agencies) concerning this  
information collection. These comments  
will help us:

(1) Evaluate whether the collection of  
information is necessary for the proper  
performance of the functions of the  
Agency, including whether the  
information will have practical utility;

(2) Evaluate the accuracy of our  
estimate of the burden of the collection  
of information, including the validity of  
the methodology and assumptions used;

(3) Enhance the quality, utility, and  
clarity of the information to be  
collected; and

(4) Minimize the burden of the  
collection of information on those who  
are to respond, through use, as  
appropriate, of automated, electronic,  
mechanical, and other collection  
technologies; e.g., permitting electronic  
submission of responses.

*Estimate of burden:* The public  
burden for this collection of information  
is estimated to average 1 hour per  
response.

*Respondents:* Foreign government  
animal health officials.

*Estimated annual number of  
respondents:* 194.

*Estimated annual number of  
responses per respondent:* 8.3.

*Estimated annual number of  
responses:* 1,611.

*Estimated total annual burden on  
respondents:* 1,598 hours. (Due to  
averaging, the total annual burden hours  
may not equal the product of the annual  
number of responses multiplied by the  
reporting burden per response.)

All responses to this notice will be  
summarized and included in the request  
for OMB approval. All comments will  
also become a matter of public record.

Done in Washington, DC, this 28th day of  
September 2020.

**Mark Davidson,**

Acting Administrator, Animal and Plant  
Health Inspection Service.
