[Docket No. RP01-22-002]

East Tennessee Natural Gas Company; Notice of Compliance Filing

December 7, 2000.

Take notice that on November 27, 2000, East Tennessee Natural Gas Company (East Tennessee) tendered its compliance filing with the Commission's "Order on Filings to Establish Imbalance Netting and Trading Pursuant to Order Nos. 587-G and 587-L [93 FERC ¶ 61,903 (2000)] issued on October 27, 2000 (October 27 Order).

East Tennessee states that the purpose of this filing is to comply with the requirements of the October 27 Order.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Comments and protests may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

[Docket No. CP01-41-000]

El Paso Natural Gas Company; Notice of Application

December 8, 2000.

On November 30, 2000, El Paso Natural Gas (El Paso), pursuant to Section 3 of the Natural Gas Act (NGA), and Subparts B and C of Part 153 of the Federal Energy Regulatory Commission's (Commission) regulations under the NGA, filed in Docket No. CP01-41-000 its application for: (1) an order authorizing the siting, construction, and operation of 60 feet of 16-inch diameter pipeline and the place of exit for export of up to 8,500 Mcf per day of natural gas at the International Boundary between the United States and Mexico in Santa Cruz County, Arizona; and, (2) a Presidential Permit, pursuant to Section 7 of the NGA and the Commission's Rules and Regulations, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may be viewed at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

The application states that El Paso understands that Nogales, Sonora,

Mexico is host to a growing commercial manufacturing industry. Due to the increasing number of industrial parks and U.S. manufacturing plants being located in northern Sonora, there is an increasing need for supplies of clean burning natural gas as fuel. In response thereto, Ener-Son, U.S.A. Inc. (Ener-Son), a buyer and seller of natural gas, has agreed to provide for the increasing needs of these commercial manufacturing plants. In addition, Ener-Son also desires to provide natural gas to fuel future electric power generation in Northern Mexico.

El Paso states that its existing California Mainline System is capable of providing interruptible transportation service for such quantities of natural gas. However, certain additional metering and lateral facilities must be constructed between El Paso's existing mainline system and the point of interconnection at the International Boundary. El Paso will construct and operate: a delivery point, Ductos de Nogales; 4,216 feet of 6.625-inch diameter lateral pipeline (the last 60 feet of lateral on the United States side will be 16-inch diameter pipe); and, metering facilities pursuant to the automatic blanket provisions under sections 157.211(a) and 157.208(a), respectively, of the Commission's regulations.

El Paso's application further states that measurement will take place at the new delivery point; however, custody transfer will take place at the border crossing. A financial arrangement has been executed with El Paso for the construction and operation of the new gas transportation facilities. El Paso understands that construction has been completed of the necessary pipeline system in Mexico to the Mexican side of the border crossing.

Questions regarding the details of this proposed project should be directed to Robert T. Tomlinson, Director, Tariff and Certificates Department, El Paso Natural Gas Company, Post Office Box 1492, El Paso, Texas 79978, call (915) 496-5959.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before December 22, 2000, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be
