

FOR FURTHER INFORMATION CONTACT:

Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to discuss recent performance of the summer flounder, scup, and black sea bass commercial and recreational fisheries and develop Fishery Performance Reports. These reports will be considered by the Scientific and Statistical Committee, the Monitoring Committee, Mid-Atlantic Fishery Management Council, and Atlantic States Marine Fisheries Commission when reviewing 2023 catch and landings limits and management measures for summer flounder, scup, and black sea bass.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Shelley Spedden at the Council Office, (302) 526-5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 26, 2022.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Management Track Assessment for Atlantic Herring and Southern New England/Mid-Atlantic Winter Flounder

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS and the Assessment Oversight Panel (AOP) will convene the Management Track Assessment Peer Review Meeting for the purpose of reviewing both Atlantic herring and southern New England/mid-Atlantic winter flounder stocks. The Management Track Assessment Peer Review is a formal scientific peer-review process for evaluating and presenting stock assessment results to managers for fish stocks in the offshore U.S. waters of the northwest Atlantic. Assessments are prepared by the lead stock assessment analyst and reviewed by an independent panel of stock assessment experts called the AOP. The public is invited to attend the presentations and discussions between the review panel and the scientists who have participated in the stock assessment process.

DATES: The public portion of the Management Track Assessment Peer Review Meeting will be held from June 27, 2022–June 29, 2022. The meeting will conclude on June 29, 2022 at 5 p.m. Eastern Standard Time. Please see **SUPPLEMENTARY INFORMATION** for the daily meeting agenda.

ADDRESSES: The meeting will be held via Google Meet (<https://meet.google.com/gwr-scrv-roh>).

FOR FURTHER INFORMATION CONTACT: Michele Traver, phone: 508-257-1642; email: michele.traver@noaa.gov.

SUPPLEMENTARY INFORMATION: For further information, please visit the Northeast Fisheries Science Center (NEFSC) website at <https://www.fisheries.noaa.gov/new-england-mid-atlantic/population-assessments/fishery-stock-assessments-new-england-and-mid-atlantic>. For additional information about the AOP meeting and the stock assessment peer review, please visit the NMFS/NEFSC web page at <https://www.fisheries.noaa.gov/new-england-mid-atlantic/population-assessments/management-track-stock-assessments>.

Daily Meeting Agenda—Management Track Peer Review Meeting

The agenda is subject to change; all times are approximate and may be changed at the discretion of the Peer Review Chair.

MONDAY, JUNE 27, 2022

Time	Activity	Lead
10 a.m.–10:15 a.m	Welcome/Logistics Introductions/Process	Michele Traver, Russ Brown, and Tom Miller (Chair).
10:15 a.m.–11:45 a.m	Atlantic herring	Jon Deroba.
11:45 a.m.–12:15 p.m	Discussion/Review/Summary	Review Panel.
12:15 p.m.–12:30 p.m	Public Comment	Public.
12:30 p.m.–1:30 p.m	Lunch.	
1:30 p.m.–3 p.m	Atlantic herring cont	Jon Deroba.
3 p.m.–3:15 p.m	Break.	
3:15 p.m.–4:30 p.m	Atlantic herring cont	Jon Deroba.
4:30 p.m.–5 p.m	Discussion/Review/Summary	Review Panel.
5 p.m.–5:15 p.m	Public Comment	Public.
5:15 p.m	Adjourn.	

TUESDAY, JUNE 28, 2022

Time	Activity	Lead
9 a.m.–9:05 a.m	Brief Overview and Logistics	Michele Traver/ Tom Miller (Chair).
9:05 a.m.–10:35 a.m	Southern New England/mid-Atlantic winter flounder.	Tony Wood.
10:35 a.m.–10:50 a.m	Break.	
10:50 a.m.–11:45 a.m	Southern New England/mid-Atlantic winter flounder cont.	Tony Wood.
11:45 a.m.–12:15 p.m	Discussion/Review/Summary	Review Panel.
12:15 p.m.–12:30 p.m	Public Comment	Public.
12:30 p.m.–1:30 p.m	Lunch.	
1:30 p.m.–3 p.m	Follow-ups	Review Panel.
3 p.m.–5 p.m	Report Writing	Review Panel.

TUESDAY, JUNE 28, 2022—Continued

Time	Activity	Lead
5 p.m.	Adjourn.	

WEDNESDAY, JUNE 29, 2022

Time	Activity	Lead
9 a.m.–5 p.m.	Report Writing	Review Panel.
5 p.m.	Adjourn.	

The meeting is open to the public; however, during the 'Report Writing' session on Tuesday, June 28th, and Wednesday, June 29th, the public should not engage in discussion with the Peer Review Panel.

Special Accommodations

This meeting is physically accessible to people with disabilities. Special requests should be directed to Michele Traver, via email.

Dated: May 25, 2022.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Endangered Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of receipt; one application for a scientific enhancement permit.

SUMMARY: Notice is hereby given that NMFS received an application from NMFS' California Coastal Office in Santa Rosa, California for an U.S. Endangered Species Act (ESA) Section 10(a)(1)(A) scientific enhancement permit (permit 26495). The purpose of this permit is to enhance the survival of the endangered Central California Coast (CCC) Evolutionary Significant Unit (ESU) of coho salmon (*Oncorhynchus kisutch*) and threatened CCC Distinct Population Segment (DPS) of steelhead (*O. mykiss*) in coastal streams of California's Santa Cruz Mountains through rescue and relocation of these species from drying streams. The public

is hereby notified that the application for Permit 26495 is available for review and comment before NMFS either approves or disapproves the application.

DATES: Written comments on the permit application must be received at the appropriate email address (see **ADDRESSES**) on or before July 1, 2022.

ADDRESSES: Written comments on the permit application should be submitted to Joel Casagrande via email at joel.casagrande@noaa.gov with "permit 26495" referenced in the subject line. The permit application is available for review online at the Authorizations and Permits for Protected Species web site: https://apps.nmfs.noaa.gov/preview/preview_open_for_comment.cfm.

FOR FURTHER INFORMATION CONTACT: Joel Casagrande (phone: 707–575–6016 or email: joel.casagrande@noaa.gov).

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

Central California Coast (CCC) Evolutionary Significant Unit (ESU) of coho salmon (*Oncorhynchus kisutch*) and threatened CCC Distinct Population Segment (DPS) of steelhead (*O. mykiss*).

Authority

Scientific research and enhancement permits are issued in accordance with Section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et. seq*) and regulations governing listed fish and wildlife permits (50 CFR 222–227). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in Section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits.

This notice is provided pursuant to Section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and any comment submitted to determine whether the application meets the requirements of

Section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period and consideration of any comment submitted therein. NMFS will publish notice of its final action in the **Federal Register**.

Those individuals requesting a hearing on the application listed in this notice should provide the specific reasons why a hearing on the application would be appropriate (see **ADDRESSES**). Such a hearing is held at the discretion of the Assistant Administrator for NOAA Fisheries.

Permit Application Received

Permit 26495

NMFS' California Coastal Office in Santa Rosa, California applied for a Section 10(a)(1)(A) scientific enhancement permit (permit 26495). This application involves enhancing the survival of endangered Central California Coast (CCC) Evolutionary Significant Unit (ESU) of coho salmon (*Oncorhynchus kisutch*) and threatened CCC Distinct Population Segment (DPS) of steelhead (*O. mykiss*) in coastal streams of California's Santa Cruz Mountains through rescue and relocation of these species from drying streams. This application also includes research and monitoring elements. To assess the efficacy of these rescue activities, a subset of the juvenile salmonids may receive a Passive Integrated Transponder tag (PIT-tag) prior to release. The tagged fish will be tracked by fixed antennas positioned in multiple regional watersheds which will provide information on their movements and survival in the freshwater environment. Otoliths and tissue samples will be collected opportunistically from spawned adult carcasses encountered to learn about the individual's life history. Tissue samples (fin clips and scales) will be collected from carcasses and a subset of live fish for genetic information (fin clips) and age-structure and growth patterns (scales). In the event that adult, pre-
