SUPPLEMENTARY INFORMATION:**Background**

Ellicott Slough National Wildlife Refuge was established in 1975 under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the Emergency Wetlands Resources Act of 1986 (16 U.S.C. 3901-3932). The nearly 300-acre Ellicott Slough National Wildlife Refuge, located in Santa Cruz County, California, consists of three noncontiguous units within the Watsonville Slough System. The Refuge was established to protect the endangered Santa Cruz long-toed salamander, and currently supports 2 of the 20 known breeding populations of the salamander.

We announce our decision and the availability of the FONSI for the final CCP for Ellicott Slough in accordance with National Environmental Policy Act (NEPA) (40 CFR 1506.6(b)) requirements. We completed a thorough analysis of impacts on the human environment, which we included in the EA that accompanied the draft CCP.

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Our Draft CCP and Environmental Assessment (EA) were available for a 30-day public review and comment period, which we announced via several methods, including press releases, updates to constituents, and a **Federal Register** notice (75 FR 44806, July 29, 2010). The Draft CCP/EA identified and evaluated three alternatives for
