In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activities proposed for File Nos. 21467, 27984, 28082, and 28294 are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

For File No. 22677, NMFS determined that the activities proposed are consistent with the Preferred Alternative in the Final Hawaiian Monk Seal Recovery Actions Programmatic Environmental Impact Statement (NMFS 2014), and that issuance of the permit amendment would not have a significant adverse impact on the human environment.

As required by the ESA, as applicable, issuance of these permit was based on a finding that such permits: (1) were applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA.

Authority: The requested permits have been issued under the MMPA of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the ESA of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226), as applicable.
